WHOLESALE  
PRICE LIST

---

*Spring 1942*

---

February 14, 1942

## TERMS AND CONDITIONS OF SALE

The prices named in this list cancel all previous lists. Being based on current market conditions, they are subject to change without notice and to depletion of stock. All sales are made with the understanding that we shall not be liable in event of crop loss or of damage from other causes over which we have no control.

**APPLICATION OF PRICES:**—The prices quoted in this list are trade prices and apply on wholesale quantities only. All orders should call for ten or multiples of ten of a variety and size. While we prefer not to break bunches of ten, in general five will be furnished at the rate per 10; 30 or more at the rate per 100, 250 or more at the rate per 1000 where such a rate is published.

**Small Quantities:**—Less than five of a variety and size is not wholesale, but, for the convenience of our wholesale customers, such orders will be filled at a premium of 5c per plant over the rate per ten with the exception of Evergreens and Deciduous Trees. On Deciduous Trees the premium will be 10% of the rate per ten but not less than 10c per plant.

**Special Marking:**—All stock selected and labeled by the customer at the Nursery will be subject to an additional charge in accordance with its value—listed prices will not necessarily govern.

**TERMS OF PAYMENT:**—2% discount for payment within 10 days of invoice date, due net first of second month following date of invoice. These terms are offered only where satisfactory credit arrangements have been made. All accounts not paid promptly on the due date draw interest at 6% from that date.

**Cash Before Shipment:**—A 3% discount will be allowed where cash in full to cover the cost of stock and packing is received before shipment, except that no discount will be allowed on orders amounting to less than \$5.00. Our experience with defaults on small balances necessitates all such balances being forwarded C. O. D. Be certain that you send enough money to cover the packing charges and avoid the comparatively heavy C. O. D. charges. Any overpayments will be refunded with the invoice.

**C. O. D. Shipments:**—Orders for C. O. D. shipment should be accompanied by cash for one third of the amount of the order to insure acceptance.

**CLAIMS:**—Claims, for any reason must be made in writing promptly upon receipt of the stock. We will gladly correct any errors, but we cannot entertain any claims that are not made within ten days after receipt of the stock or are made after the stock has once been accepted.

**GRADES:**—Our stock is all young, thrifty, and well grown, and is carefully dug and handled. All grades conform to the Standard Grades of the American Association of Nurserymen.

**PACKING:**—The prices in this list do not include packing. All orders for forwarding by freight or express, except car-load lots, are carefully packed in boxes or bales for which a charge is made sufficient to remunerate for cost of materials and time. No charge is made for loading in bulk in cars or on trucks, but all trucks should carry sufficient tarpaulins to properly cover the stock.

**BOXING CHARGES:**—Charges are made as low as possible for well made boxes, paper lined:

	12 feet	10 feet	8 feet	6 feet
30x30 inches .....	\$5.00	\$4.50	\$3.75	\$3.25
24x30 inches .....	4.50	4.00	3.50	3.00
24x24 inches .....	4.25	3.75	3.25	2.75
18x24 inches .....	3.75	3.15	2.85	2.35
18x18 inches .....		2.75	2.35	2.00
12x12 inches .....		2.00	1.65	1.35

Bales 35c and 50c to \$4.00 each depending on size.

## TERMS AND CONDITIONS OF SALE — Continued

**NON-WARRANTY AND LIABILITY:**—We give no warranty, express or implied, as to the growth or productiveness of the Nursery Stock that we sell and we cannot be responsible in any way for results in transplanting. We exercise the greatest care to keep our varieties pure and true to name and hold ourselves in readiness to replace at any time, on proper proof, any Nursery Stock that may prove otherwise or to refund the amount paid, but it is mutually agreed that we shall at no time be liable for any amount greater than that originally paid for the Nursery Stock in question.

**DIRECTIONS FOR SHIPPING:**—In ordering, please give definite shipping instructions, especially advising as to whether we should ship by freight, express, or truck line. Where full instructions are not given, we ship as we think best serves your interests, but in no case do we assume responsibility for the stock after it has left our hands. The stock becomes the property of the purchaser when turned over to the transportation company, and the risk and cost of transportation belong to the customer.

## NOTICE TO ILLINOIS CUSTOMERS

The regulations under the Illinois Retailers' Occupation Tax Law covering the exemption of sales for resale from the 2% Sales Tax require that in order to establish proof that purchases are for that purpose, we must keep on file Certificates of Purchase for Resale on all purchases made by Illinois customers on which we claim exemption from Sales Tax. Illinois customers who have not filed such a certificate with us are therefore requested to accompany their orders with a proper certificate showing their registration number. We must of necessity charge the 2% Sales Tax on the invoices of all customers who do not furnish us with such certificates.

## TO THE TRADE

**LOCATION AND SHIPPING FACILITIES:**—Princeton is located in north-central Illinois 104 miles west of Chicago on the main line of the Burlington Railroad and on three concrete highways—U. S.-Illinois 6 and 34 and Illinois 26. Our office, packing sheds, and home farm are located just south of the city limits on South Main Street (Tiskilwa Road).

**TRUCK DELIVERIES:**—Several responsible freight truck lines operate through Princeton, with proper connections for transfers to many points, particularly in Illinois and Iowa and points east and north of the Chicago transfer. Rates in most instances are the same or nearly the same as local railroad freight rates.

Where the size of the shipment warrants, we are in a position to arrange for direct deliveries in bulk by truck at reasonable rates. Cost of deliveries by chartered trucks will be quoted on request.

Where customers wish to send their own trucks for bulk loading, it is advisable to give us three or four days advance notice so that we may have the stock ready when the truck arrives and avoid delay. Especially where the orders entail the digging of stock in the field, we cannot guarantee to fill truck orders the same day the truck arrives without such advance notice. Care should be taken that all trucks carry sufficient tarpaulins to properly cover and protect the stock, as we can accept no responsibility whatever for the condition of the stock after it leaves our hands.

## FRUITS

**Caliper:**—It is intended that the caliper shall govern in the grading of fruit trees. Heights given are approximate only and represent the average height of most varieties, but some slow growing varieties may fall short of the heights specified.

### APPLES

Our Apples have made up unusually heavy in caliper this year and we can furnish more of the heavier grades than usual. All of the trees offered are buds, none are grafts.

	Per 10	Per 100
First Class, 1 inch and up, 5 feet and up .....	\$ 3.60	\$ 32.50
First Class, 7/8 to 1 inch, 5 feet and up .....	3.20	28.00
First Class, 11/16 to 7/8 inch, 4½ feet and up (\$220.00 per 1000) .....	2.80	25.00
First Class, Yellow Delicious, 11/16 to 7/8 inch, 4½ feet and up .....	3.75	32.50
First Class, Dark Red Jonathan, 9/16 to 11/16, 4 feet and up .....	2.10	18.00

Delicious	Grimes Golden	Stayman Winesap
Delicious — Dark Red	Jonathan	Wealthy
Duchess	Jonathan — Dark Red	Winesap
Early Joe	McIntosh	Yellow Transparent
Fameuse (Snow)	Salome

First Class, 1 inch and up, 5 feet and up .....	3.20	27.50
First Class, 7/8 to 1 inch, 5 feet and up .....	2.60	23.00
First Class, 11/16 to 7/8 inch, 4½ feet and up .....	2.30	20.00
Macoun	Red Rome Beauty	Whitney Crab
Ramsdell Sweet	Tallman Sweet	

### SOUR CHERRIES

Our Cherries also have made up very heavy in caliper, with an unusually large percentage in the heavier grades.

	Per 10	Per 100
Two Year, 1 inch and up, 5 feet and up .....	\$ 4.75	\$ 42.50
Two Year, 7/8 to 1 inch, 4½ feet and up .....	4.25	38.00
Two Year, 11/16 to 7/8 inch, 4 feet and up .....	3.80	35.00
Two Year, Montmorency only, 1¼ to 1½ inch, 5 feet and up .....	5.25	47.50
Early Richmond	Large Montmorency	

### STANDARD PEARS

	Per 10	Per 100
Two Year, 11/16 and up, 4½ feet and up .....	\$ 3.50	\$ 30.00
Bartlett	Keiffer	Seckel
Duchess	Lincoln	

### PLUMS — on Plum

	Per 10	Per 100
Two Year, 11/16 and up, 4½ feet and up .....	\$ 4.25	\$ 37.50
German Prune	Lombard	Richland Prune
Green Gage	Reine Claude	Shropshire Damson
Burbank, One Year, 11/16 and up, 4 feet and up .....	4.00	35.00

### PEACHES

	Per 10	Per 100
One Year No. 1, 9/16 to 11/16, 3½ feet and up .....	\$ 2.20	\$ 18.00
Carman	Elberta	J. H. Hale
Champion	Hale Haven	

All orders are booked subject to our regular Terms and Conditions of Sale as printed on pages 2 and 3. These should be carefully noted as we cannot vary from them.

## APRICOTS — on Peach

	Per 10	Per 100
One Year No. 1, 9/16 to 11/16, 3½ feet and up	\$ 4.00	\$ 35.00
Moorepark Superb		

## GOOSEBERRIES

	Per 10	Per 100
Downing, 2 year No. 1	\$ 1.50	\$ 12.00
Downing, 2 year No. 2	1.20	9.00
Houghton, 2 year No. 1	1.30	10.00

## GRAPES

	Per 10	Per 100
Agawam, light red, 2 year No. 1	\$ .90	\$ 7.00
Brighton, dark red, 2 year No. 1	1.00	8.00
Concord, black, 2 year No. 1	.75	5.50
Diamond (Moore's Diamond), white, 2 year No. 1	.90	7.50
Moore's Early, black, 2 year No. 1	1.00	8.00
Niagara, white, 2 year No. 1	.90	7.00
Portland, fine early white, 2 year No. 1	1.00	8.00
Worden, black, 2 year No. 1	.90	7.00

## CURRANTS

	Per 10	Per 100
Cherry, 2 year No. 1	\$ 1.00	\$ 7.50
Perfection, 2 year Extra Heavy	1.50	12.50
Perfection, 2 year No. 1	1.10	8.00
Perfection, 2 year No. 2	.85	6.00
Red Lake, 2 year No. 1	1.25	
Wilder, 2 year Extra Heavy	1.25	10.00
Wilder, 2 year No. 1	.90	7.00

## RASPBERRIES

	Per 100	Per 1000
Chief, early long season red, No. 1 suckers	\$ 2.00	\$ 18.00
Latham, best main crop red, No. 1 suckers	2.00	18.00

## GARDEN ROOTS

	Per 10	Per 100	Per 1000
Asparagus, Mary Washington, rust resistant, 1 year No. 1 (3000 or more at \$5.00 per 1000)	\$.75	\$ 1.00	\$ 6.00
Horseradish, Russian, strong crowns	.75	4.00	30.00
Horseradish, Russian, strong cuttings		1.50	10.00
Rhubarb, Myatt's Linnaeus, whole roots, 1½ inch and up	.55	3.50	30.00
Rhubarb, Myatt's Linnaeus, whole roots, 1 to 1½ inch	.45	2.60	22.00
Rhubarb, Myatt's Linnaeus, whole roots, 5/8 to 1 inch	.35	2.10	18.00
Rhubarb, Flare, whole roots, 1½ inch and up	.65	4.00	
Rhubarb, Flare, whole roots, 1 to 1½ inch	.55	3.00	
Rhubarb, Flare, whole roots, 5/8 to 1 inch	.45	2.40	

Flare is a comparatively new variety, erect and compact in growth. The stalks are an attractive red throughout their length and the flesh is unusually crisp and tender.

## DECIDUOUS TREES

The Shade and Ornamental Trees which we offer are young, thrifty, well rooted specimens which have been carefully trimmed and shaped. We dig fresh for each order.

All calipers are taken six inches above the crown.

### ACER dasycarpum — Soft or Silver Maple 60-80 ft.

A large tree of rapid growth, by far the sturdiest of our rapid growing trees.

	Per 10	Per 100
5 to 6 feet .....	\$ 2.80	\$ 25.00
6 to 8 feet .....	4.00	35.00
8 to 10 feet, 1 to 1 $\frac{1}{4}$ inch caliper .....	6.50	60.00
1 $\frac{1}{4}$ to 1 $\frac{1}{2}$ inch caliper .....	8.00	70.00
1 $\frac{1}{2}$ to 1 $\frac{3}{4}$ inch caliper .....	9.50	85.00
1 $\frac{3}{4}$ to 2 inch caliper .....	11.00	100.00
2 to 2 $\frac{1}{2}$ inch caliper .....	14.00	125.00
2 $\frac{1}{2}$ to 3 inch caliper .....	19.00	175.00

### dasycarpum var. Skinner's Cut-leaved Maple 60-80 ft.

Very similar to the Wier's Cut-leaved Maple with more finely cut leaves.

5 to 6 feet .....	5.00	
6 to 8 feet .....	7.00	60.00
8 to 10 feet, 1 to 1 $\frac{1}{4}$ inch caliper .....	9.00	80.00
1 $\frac{1}{4}$ to 1 $\frac{1}{2}$ inch caliper .....	11.00	95.00
1 $\frac{1}{2}$ to 1 $\frac{3}{4}$ inch caliper .....	12.50	

### platanoides — Norway Maple 50-60 ft.

One of the best of the Maples. A sturdy tree with a broad rounded head, excellent for street and park planting.

6 to 8 feet .....	8.50	80.00
8 to 10 feet, 1 to 1 $\frac{1}{4}$ inch caliper .....	12.00	110.00
1 $\frac{1}{4}$ to 1 $\frac{1}{2}$ inch caliper .....	15.00	135.00
1 $\frac{1}{2}$ to 1 $\frac{3}{4}$ inch caliper .....	19.00	
1 $\frac{3}{4}$ to 2 inch caliper .....	22.50	

### platanoides Schwedleri — Schwedler Purple-leaved Maple

A type of the Norway Maple. The leaves are bright purplish-red when they first come out in the Spring, changing to a very dark green in the Summer.

One Year Whips, 6 to 7 feet .....	11.00	95.00
One Year Whips, 7 to 8 feet .....	12.00	110.00

The one year whips offered above are Oregon grown from transplanted Norway Maple seedlings, grown one year, budded and cut back to the ground. Straight whips, the best material obtainable for lining out to grown on.

### saccharum — Hard or Sugar Maple 70-90 ft.

The native Sugar or Rock Maple, a tall sturdy tree with an upright oval head.

5 to 6 feet .....	6.50	60.00
6 to 8 feet .....	10.00	90.00
8 to 10 feet, 1 to 1 $\frac{1}{4}$ inch caliper .....	14.00	
1 $\frac{1}{4}$ to 1 $\frac{1}{2}$ inch caliper .....	15.50	
1 $\frac{1}{2}$ to 1 $\frac{3}{4}$ inch caliper .....	19.00	
1 $\frac{3}{4}$ to 2 inch caliper .....	22.50	

### rubrum — Red or Scarlet Maple 50-60 ft.

An attractive round-headed tree with light gray bark and good foliage that turns a bright scarlet in the Fall.

4 to 5 feet .....	10.00	
5 to 6 feet .....	12.50	
6 to 8 feet .....	16.00	
8 to 10 feet, 1 to 1 $\frac{1}{4}$ inch caliper .....	21.00	
1 $\frac{1}{4}$ to 1 $\frac{1}{2}$ inch caliper .....	25.00	
1 $\frac{1}{2}$ to 2 inch caliper .....	30.00	

## DECIDUOUS TREES — CONTINUED

**AESCULUS glabra — Ohio Buckeye 30-40 ft.**

A small native round-headed tree of the Horse-chestnut family.

	Per 10	Per 100
3 to 4 feet .....	5.00	
4 to 5 feet .....	7.50	
5 to 6 feet .....	10.00	

Ash — see Fraxinus.

**BETULA alba — European White Birch 30-40 ft.**

A handsome graceful tree with white bark.

4 to 5 feet .....	4.50	35.00
5 to 6 feet .....	5.00	45.00
6 to 8 feet .....	7.00	65.00
8 to 10 feet, 1 to 1¼ inch caliper .....	10.00	85.00
1¼ to 1½ inch caliper .....	11.50	100.00
1½ to 1¾ inch caliper .....	14.00	125.00
1¾ to 2 inch caliper .....	16.50	150.00

**alba laciniata pendula — Cut-leaved Weeping Birch 30-40 ft.**

6 to 8 feet, wrapped in moss .....	14.00	125.00
6 to 8 feet, B&B .....	22.00	
8 to 10 feet, wrapped in moss .....	19.00	175.00
8 to 10 feet, B&B .....	32.50	
1¼ to 1½ inch, wrapped in moss .....	25.00	
1¼ to 1½ inch, B&B .....	40.00	
1½ to 1¾ inch caliper, wrapped in moss .....	30.00	
1½ to 1¾ inch caliper, B&B .....	47.00	

Birch — see Betula.

**CATALPA Bungei — Umbrella Catalpa**

Double-budded trees, with full even heads.

2 year heads, 5 to 6 foot stems .....	7.50	70.00
2 year heads, 4½ to 5 foot stems .....	6.00	

**CELTIS occidentalis — Hackberry 60-70 ft.**

A valuable tough-wooded native shade tree with a straight trunk and broadly rounded head.

5 to 6 feet .....	4.50	35.00
6 to 8 feet .....	6.00	50.00
8 to 10 feet, 1 to 1½ inch caliper .....	9.00	
1½ to 2 inch caliper .....	12.50	

**CERCIS canadensis — Red-Bud or Judas Tree 20-25 ft.**

A good hardy strain grown from local seed. Cercis canadensis is one of the numerous plants which will not prove hardy when moved into this section of the country from the South. Here at Princeton we are on the northern limits of the native Red-Bud, and these plants will prove much harder than those grown from southern seed. Grown in bush form.

2 to 3 feet .....	2.30	20.00
3 to 4 feet .....	3.50	30.00
4 to 5 feet .....	4.50	40.00
5 to 6 feet .....	5.50	50.00
6 to 8 feet .....	7.50	70.00

**CHERRY, JAPANESE FLOWERING (Prunus serrulata sachalinensis vars.)**

A very handsome group of flowering trees, well known for their profusion of pink and rose flowers in the Spring. Upright in habit of growth and very desirable in landscape work.

4 to 5 feet, well branched .....	9.50	90.00
----------------------------------	------	-------

**Kwansan (Kansan-Sekinama)** — one the best. Flowers rich rose-red, large, late and very double.

**Naden (Prunus sieboldi)** — double, deep pink.

**Paul Wohlert** — a very fine semi-double red.

**Shirofugen** — double, light pink in bud opening white, the latest to bloom.

Crabs, Flowering — see Malus.

## DECIDUOUS TREES — CONTINUED

**CRATAEGUS coccinea — Thicket Hawthorn 18-20 ft.**

One of the most decorative of the native Hawthorns, forming a broad flat to rounded head.

	Per 10	Per 100
2 to 3 feet .....	3.30	30.00
2 to 3 feet, B&B .....	6.50	60.00
3 to 4 feet .....	4.50	40.00
3 to 4 feet, B&B .....	8.00	75.00
4 to 5 feet .....	7.00	60.00
4 to 5 feet, B&B .....	12.50	110.00
5 to 6 feet .....	11.00	100.00
5 to 6 feet, B&B .....	18.00	165.00
6 to 8 feet .....	15.00	135.00
6 to 8 feet, B&B .....	23.00	215.00

**crusgalli — Cockspur Thorn 15-18 ft.**

A very distinct Hawthorne, with stiff wide-spreading branches and dark shiny green leaves that turn orange and scarlet in the Fall.

18 to 24 inches .....	3.00	25.00
18 to 24 inches, B&B .....	5.50	50.00
2 to 3 feet .....	4.00	35.00
2 to 3 feet, B&B .....	7.00	60.00
3 to 4 feet .....	5.00	42.50
3 to 4 feet, B&B .....	8.50	80.00
4 to 5 feet .....	7.50	65.00
4 to 5 feet, B&B .....	12.00	110.00
5 to 6 feet .....	10.00	90.00
5 to 6 feet, B&B .....	17.50	160.00
6 to 8 feet .....	15.00	135.00
6 to 8 feet, B&B .....	24.00	225.00

**oxycantha pauli — Paul's Double Scarlet Hawthorn 15-20 ft.**

Brilliant double scarlet flowers in June.

4 to 5 feet, well branched .....	8.50	80.00
----------------------------------	------	-------

*Elaeagnus angustifolia* — see under Shrubs on page 18.

Elm — see *Ulmus*.

Flowering Crabs — see under *Malus* on pages 10 to 12.

**FRAXINUS americana — American White Ash 70-80 ft.**

A tall tree with an upright oval head, much used for street and park planting.

5 to 6 feet .....	2.80	25.00
6 to 8 feet .....	4.25	27.50
8 to 10 feet .....	6.50	60.00
1 1/4 to 1 1/2 inch caliper .....	8.00	75.00
1 1/2 to 1 3/4 inch caliper .....	10.00	90.00
1 3/4 to 2 inch caliper .....	12.50	110.00

**lanceolata — Green Ash 50-60 ft.**

A somewhat smaller grower than the White Ash, particularly adapted to planting in cold and dry climates.

5 to 6 feet .....	2.60	22.50
6 to 8 feet .....	3.75	32.50
8 to 10 feet .....	6.00	55.00
1 1/4 to 1 1/2 inch caliper .....	7.50	70.00
1 1/2 to 1 3/4 inch caliper .....	9.50	85.00
1 3/4 to 2 inch caliper .....	11.50	100.00
2 to 2 1/2 inch caliper .....	14.00	

**GLEDITSCHIA triacanthos inermis — Thornless Honey-locust 50-60 ft.**

An almost, but not entirely, thornless type of the common Honey-locust.

4 to 5 feet .....	3.00	25.00
5 to 6 feet .....	4.50	40.00
6 to 8 feet .....	6.50	60.00
8 to 10 feet, 1 to 1 1/4 inch caliper .....	9.50	85.00
1 1/4 to 1 1/2 inch caliper .....	11.00	95.00
1 1/2 to 2 inch caliper .....	13.50	120.00

## DECIDUOUS TREES — CONTINUED

GYMNOCLADUS dioicus — Kentucky Coffeetree 70-90 ft.			Per 10	Per 100
5 to 6 feet .....			5.00	45.00
6 to 8 feet .....			7.50	65.00
8 to 10 feet .....			10.00	90.00
1¼ to 1½ inch caliper .....			12.50	110.00
1½ to 2 inch caliper .....			15.00	135.00
2 to 2½ inch caliper .....			17.50	

Hackberry — see *Celtis occidentalis*.

Hawthorn — see *Crataegus*.

Honey-locust — see *Gleditsia*.

Horse-chestnut — see *Aesculus*.

JUGLANS nigra — Black Walnut 80-100 ft.				
4 to 5 feet, once transplanted .....			2.60	22.50
5 to 6 feet, once transplanted .....			3.50	30.00
6 to 8 feet, once transplanted .....			4.75	42.50
8 to 10 feet, twice transplanted .....			7.50	65.00
1¼ to 1½ inch caliper, twice transplanted .....			8.50	75.00
1½ to 2 inch caliper, twice transplanted .....			11.50	100.00
2 to 2½ inch caliper, twice transplanted .....			15.00	135.00

Kentucky Coffeetree — see *Gymnocladus*.

Linden — see *Tilia*.

### MAGNOLIA soulangeana — Saucer or Chinese Hybrid Magnolia 30-40 ft.

The most decorative and the most popular of the hybrid Magnolias, producing a wealth of very large rose-colored bloom just before the leaves in the Spring. The plants offered were grown from layers and are on their own roots. They should not be compared with plants grafted on the tender *Magnolia grandiflora* roots, which are cheaper but not hardy.

(All own-root plants, no grafts)

2 to 3 feet, B&B .....	Each	\$ 2.25	
3 to 4 feet, B&B .....	Each	4.25	40.00
4 to 5 feet, B&B .....	Each	5.50	52.50
5 to 6 feet, B&B .....	Each	6.75	65.00

Maple — see *Acer*.

Mountain Ash — see *Sorbus aucuparia*.

Oak — see *Quercus*.

### PLATANUS occidentalis — American Sycamore 80-90 ft.

A very large native shade tree with light green exfoliating bark.

## MALUS - Flowering Crabs

Small trees producing a profusion of flowers in the Spring—one of the most desirable and most decorative classes of our ornamental flowering trees. All are small trees, very free-flowering, producing masses of very showy flowers early in the Spring, followed in the Fall by decorative fruits that often persist on the trees well into the Winter. They are perfectly hardy, grow well in any good soil, and are very satisfactory either as specimen plants or in mass plantings.

### MALUS ioenis plena — Bechtel Double-flowering Crab 15-18 ft.

This is probably the best known of all of the many Flowering Crabs. It forms a small upright bushy headed tree which is covered in May with large and very double fragrant pink flowers that bear a striking resemblance to small roses. The latest in blooming period of all of the Flowering Crabs.

### sargentii — Sargent's Crab 5-6 ft.

A low-growing bush form Crab, with rigid wide-spreading horizontal branches; when mature it is usually broader than high. One of the most decorative of the Flowering Crabs and very floriferous. Flowers cup-shaped, pure white, about an inch across. The first of the Crabs to bloom in the Spring.

Flowering Crabs, 3 to 4 feet .....	\$ .75	\$ 6.50	\$
Flowering Crabs, 4 to 5 feet .....	.90	8.00	
Flowering Crabs, 5 to 6 feet .....	1.10	10.00	

**Malus "Frau Louise Dittmann"** (3-4 ft.) — A very handsome Crab with large semi-double flowers of soft pink.

**Malus "Oekonomierat Echtermeyer"** (4-5 ft. and 5-6 ft.) — Drooping, almost pendulous branches; carmine-pink flowers and dark brownish-red fruit.

**Malus pendula "Elise Rathke"** (3-4 ft. and 4-5 ft.) — A picturesque tree with broad-spreading horizontal branches which ascend at the tips. Light pink flowers and large yellowish-green fruit striped red.

**Malus "Veitch's Scarlet"** (4-5 ft. and 5-6 ft.) — One of the showiest of the Flowering Crabs with large white flowers and attractive scarlet fruits.

### MALUS SPECIAL VARIETIES — LIST NO. 2

	Each	Per 10	Per 100
Flowering Crabs, 3 to 4 feet .....	.60	5.00	
Flowering Crabs, 4 to 5 feet .....	.75	6.50	
Flowering Crabs, 5 to 6 feet .....	.90	7.50	

**Malus "Dartmouth Crab"** (3-4 ft., 4-5 ft., 5-6 ft.) — Large white flowers and deep reddish-purple plum-like fruit.

**Malus dawsoniana** (M. fusca x M. pumila) (3-4 ft. and 4-5 ft.) — A slender stemmed variety with white flowers and distinctive yellow pear-shaped fruit.

**Malus "Lady Northcliffe"** (5-6) — A very attractive Crab with pinkish white flowers and small yellow fruit.

### MALUS - FLOWERING CRABS — DESCRIPTIVE LIST

#### MALUS adstringens 25-30 ft.

An upright tree of strong growth and shapely habit; very floriferous and very showy in bloom. The flowers are very large, very dark red in bud, opening to a deep rose-pink.

#### arnoldiana — Arnold Crab 16-18 ft.

A fine hybrid closely resembling *Malus floribunda*, but with larger flowers of soft pink. Very floriferous and one of the most handsome and shapely of the Flowering Crabs.

#### atrosanguinea — Carmine Crab 12-16 ft.

A spreading shrubby tree resembling *Malus floribunda* in general appearance, but with flowers of a deep rose-carmine that does not fade to white. A very heavy bloomer and a tree of striking appearance.

#### baccata — Siberian Crab 18-20 ft.

A small round-headed tree, earliest of the Crabs to bloom. The flowers are very large and handsome, pinkish white fading to pure white, and are followed in the Fall by cherry-like red or orange fruits.

#### baccata — Gibbs Golden Gage 18-20 ft.

A type of *Malus baccata* differing chiefly in the size and shape of the very decorative fruits, which are of medium size, waxy, five-sided, and a translucent yellow.

#### baccata pruneiformis 18-20 ft.

Another *Malus baccata* type with typical flowers and attractive five-sided red or yellow fruits.

#### brevipes 12-16 ft.

Closely related to *Malus floribunda*, but a lower denser grower. Very free flowering and attractive with large nearly white flowers.

#### coronaria — Wild Sweet Crab 15-20 ft.

Very showy blush-pink flowers, the most showy of the native Flowering Crabs.

#### coronaria aurea — Golden-leaved Sweet Crab

A type of the Wild Sweet Crab with golden foliage.

## MALUS — Flowering Crabs — Descriptive List — Continued

## MALUS floribunda — Japanese Flowering Crab 15-18 ft.

Probably the best known of the Oriental Flowering Crabs, a handsome variety and a very free bloomer. The bloom buds are rose or rose-red, opening into a mass of rose-pink blooms that gradually fade to white.

## hopa — Hopa Crab 20-25 ft.

A very attractive variety of strong upright growth, probably a variety of *Malus adstringens*. It bears a profusion of very large double flowers of an unfading rose-red, followed by large edible fruits that are very distinctly red fleshed.

## ioensis palmeri — Palmer Crab 15-18 ft.

A regional variety of the native Prairie Crab, coming from the Missouri area. A small spiny tree of compact growth, an improvement over the native Prairie Crab. Flowers large, rosy-pink fading to rosy-white.

## magdeburgensis 14-16 ft.

A *Malus spectabilis* hybrid with striking semi-double rose-pink flowers borne in dense clusters. Resembles *Malus scheideckeri* in growth, but is a more robust grower.

## prunefolia rinki — Ringo Crab 15-18 ft.

A strong growing variety with wide-spreading branches and large flower trusses. Delicate pink in bud, followed by almost white flowers. The very decorative red or yellow fruit is produced very abundantly and persists on the tree well into the Winter.

## purpurea — Purple Crab

Erect and open in habit, with purplish red leaves and deep crimson flowers which are followed in the Fall by dark purplish-red fruits.

## purpurea aldenhamensis — Aldenham Crab 16-18 ft.

Another very showy hybrid with bronze-purple foliage. Very similar to the Eley Crab, but the bloom is larger, semi-double to double, and a bright vineous-red.

## purpurea Eleyi — Eley Crab 16-18 ft.

A very showy and handsome hybrid with reddish purple foliage, the best of the purple-leaved Crabs. The flowers are a brilliant bright red followed by dark purple fruits.

## robusta — Cherry Crab 20-25 ft.

A handsome tree of strong upright growth. Flowers large, very fragrant, soft pink to white. One of the earliest of the Crabs to bloom.

## robusta persicifolia — Peach-leaved Cherry Crab 20-25 ft.

Similar to the type, but with long peach-like leaves.

## scheideckeri — Scheidecker Crab 12-15 ft.

A rather small uprightly branched tree with a tendency to grow in bush form when not trimmed regularly. Flowers semi-double to double, borne very freely in upright clusters, red in bud, opening deep pink. A very decorative variety.

## seiboldi calocarpa (M. zumi calocarpa) — Toringo Crab 15 ft.

A wide-spreading shrubby Crab with large dark-pink flowers followed by small scarlet fruits. A very floriferous and attractive variety.

## theifera — Tea Crab 15-16 ft.

One of the best and most interesting of the Flowering Crabs. Flowers light pink. Very free-flowering, resembling in its flowering habit a Cherry rather than a Crab.

## zumi — Zumi Crab 12-14 ft.

A shrubby tree with a dense upright habit of growth. Flowers large, pale pink in bud, opening white.

## POPULUS alba bolleana — Bolleana Poplar 50-60 ft.

A narrow-columnar form of the White Poplar with green bark and silvery foliage. Probably the best of the fastigate Poplars.

	Per 10	Per 100

Walnut — see Juglans.

Willow — see Salix.

## DECIDUOUS SHRUBS

The Shrubs that we are offering are young, thrifty, well grown, and have been given plenty of room in the row to develop into well-shaped bushy plants. Graded according to the Standard Grades of the American Association of Nurserymen. Figures following the name of the plant indicate average ultimate height under reasonably good growing conditions in this section of the country.

### ACANTHOPANAX (Aralia) pentaphyllum — Five-leaved Aralia 6-7 ft.

A fine massing shrub of medium height with shiny dark green foliage that does not show dust. Grows well in poor and gravelly soil.

	Per 10	Per 100
18 to 24 inches .....	\$ 1.60	\$ 13.00
2 to 3 feet .....	2.00	17.00
3 to 4 feet .....	2.30	20.00
4 to 5 feet .....	2.80	25.00

### ALMOND — Pink Flowering (Prunus glandulosa rosea) 5 ft.

Heavy well branched plants. We are growing all of our Almonds on their own roots. Such plants are much more compact and better in shape than those grown on Plum roots.

2 to 3 feet, own root .....	2.70	24.00
3 to 3½ feet, own root .....	3.20	28.00
3½ to 4 feet, own root .....	4.00	

### ALTHAEA or Rose of Sharon (Hibiscus syriacus) 10-12 ft.

Bush Form, 2 to 3 feet .....	1.80	15.00
Bush Form, 3 to 4 feet .....	2.30	20.00
Tree Form, 3 to 4 feet .....	3.00	

Anemonaeflorus — double, rose-pink.

Jeanne d' Arc — double, white.

Lucy — the best double red.

Purpurea Semi-plena — semi-double, purple.

Rubis — single, red

Snowdrift — a very fine single white.

Coelestis—bush form, 18 to 24 inches .....	2.50	22.00
Coelestis—bush form, 2 to 3 feet .....	3.00	27.00

Best of all of the Althaeas, with flowers of a beautiful china-blue, blooming continuously from mid-summer until late fall. Plants rather dwarf.

Aralia pentaphylla — see Acanthopanax pentaphyllum.

### ARONIA arbutifolia — Red Chokeberry 8 ft.

The most handsome of the Aronias, with lustrous dark green leaves that turn scarlet in the Fall, and bright red berries.

18 to 24 inches .....	1.50	12.00
2 to 3 feet .....	2.10	18.00
3 to 4 feet .....	2.80	25.00
4 to 4½ feet .....	3.50	

### melanocarpa (nigra) — Black Chokeberry 6 ft.

18 to 24 inches .....	1.70	14.00
2 to 3 feet .....	2.10	18.00
3 to 4 feet .....	2.60	22.50

Barberry — see Berberis.

Beauty-bush — see Kolkwitzia.

### BERBERIS thunbergii — Japanese Barberry—4 ft.

12 to 15 inches, 2 year .....	(\$45.00 per 1000)	.70	5.00
15 to 18 inches, 2 year .....	(\$60.00 per 1000)	.95	7.00
18 to 24 inches, 3 year .....	(\$80.00 per 1000)	1.20	9.00
24 to 30 inches, 3 year heavy .....	(\$110.00 per 1000)	1.60	13.00
30 to 36 inches, 3 year heavy .....		2.00	17.00

## DECIDUOUS SHRUBS — CONTINUED

**BERBERIS thunbergii atropurpurea** — Red-leaved Japanese Barberry 3-4 ft.

The true bright red type, grown from cuttings. The plants should be set in full sun to retain their best color.

	Per 10	Per 100
10 to 12 inches .....	1.00	7.00
12 to 15 inches .....	1.20	9.00
15 to 18 inches .....	1.60	13.00
18 to 24 inches .....	2.00	17.00
24 to 30 inches .....	2.50	22.00
30 to 36 inches .....	3.25	

**BUDDLEIA davidia magnifica** — Ox-eye Butterfly-bush 4-5 ft.

Strongest grower of the Buddleias. The plants which we are offering are of the improved Superba type.

2 year No. 1 .....	1.60	12.50
--------------------	------	-------

**Ile de France** 3-4 ft.

One of the best of the Buddleias for outdoor planting. Very free-flowering, in spikes often a foot long; the flowers a very rich dark claret-purple.

2 year No. 1 .....	1.80	15.00
--------------------	------	-------

**CALYCANTHUS floridus** — Sweetshrub 5-6 ft.

Heavy well branched plants grown from hardy northern seed.

18 to 24 inches .....	1.60	13.00
2 to 3 feet .....	2.00	17.00
3 to 4 feet .....	2.80	25.00

**CARAGANA arborescens** — Siberian Pea-tree 10-12 ft.

18 to 24 inches .....	1.00	7.00
2 to 3 feet .....	1.40	11.00
3 to 4 feet .....	2.00	16.00
4 to 5 feet .....	2.60	22.50

**CHIONANTHUS virginica** — White Fringe-tree 18-20 ft.

A very effective tall massing shrub, with large glossy leaves.

Covered in the Spring with long racemes of feathery white flowers.

18 to 24 inches .....	2.80	25.00
2 to 3 feet .....	3.50	

Chokeberry — see Aronia.

**CLETHRA alnifolia** — Sweet Pepper-bush or Summer-sweet 3-4 ft.

18 to 24 inches .....	3.00	
-----------------------	------	--

Coralberry — see Symphoricarpos vulgaris.

**CORNUS alba siberica** — Coral Dogwood 8-10 ft.

A very vigorous tall shrub with bright red bark in the Winter.

Best of the red-branched Dogwoods.

2 to 3 feet .....	1.60	13.00
3 to 4 feet .....	2.00	17.00
4 to 5 feet .....	2.30	20.00

**alternifolia** — Pagoda Dogwood 12-15 ft.

A very ornamental large shrub with an unusual form of growth, the branches being arranged in flat horizontal whorles.

3 to 4 feet .....	2.50	22.00
4 to 5 feet .....	2.80	25.00
5 to 6 feet .....	3.75	32.50

**mas** — Cornelian Cherry 15-20 ft.

One of the best of the taller massing shrubs, with very deep green and shining foliage. Yellow flowers in the Spring before the leaves followed by large red edible fruits in the Fall.

18 to 24 inches .....	2.10	18.00
-----------------------	------	-------

**paniculata** — Gray Dogwood 11-12 ft.

A small native massing shrub with upright gray branches. Covered with white berries in the Fall.

18 to 24 inches .....	1.50	12.00
2 to 3 feet .....	1.80	15.00
3 to 4 feet .....	2.00	17.00
4 to 5 feet .....	2.50	20.00

## DECIDUOUS SHRUBS — CONTINUED

<b>CORNUS stolonifera — Red-osier Dogwood 8-10 ft.</b>		
A native Dogwood with dark wine-red branches and white fruit. Per 10		
18 to 24 inches .....	1.20	9.00

Elder — see <i>Sambucus</i> .		

## DECIDUOUS SHRUBS — CONTINUED

**EUONYMUS alatus — Winged Euonymus or Burning-bush 8 ft.**

Best of the hardy types of Euonymus. A compact slow-growing bush form with corky winged bark. Foliage turns brilliant red with the first frosts.

	Per 10	Per 100
15 to 18 inches .....	3.00	
18 to 24 inches .....	4.00	35.00
2 to 3 feet .....	5.50	
3 to 4 feet .....	7.50	

**americanus — Brook Euonymus 6-8 ft.**

An attractive upright shrub with large and very showy pink fruits.

2 to 3 feet .....	2.30	
3 to 4 feet .....	2.80	
4 to 5 feet .....	3.30	
5 to 6 feet .....	4.00	

**atropurpureus — Wahoo 10-12 ft.**

A vigorous hardy native shrub or small tree producing a wealth of decorative scarlet berries in the Fall. Brilliant red autumn foliage.

18 to 24 inches .....	1.80	15.00
2 to 3 feet .....	2.30	20.00
3 to 4 feet .....	3.00	27.00

**europaeus — European Burning-bush 12-14 ft.**

A large shrub or small tree, heaviest fruiting of all the Euonymus. Brilliant autumn foliage.

2 to 3 feet .....	2.00	17.00
3 to 4 feet .....	2.30	20.00
4 to 5 feet .....	3.00	27.00
5 to 6 feet .....	3.80	35.00

**yeddoensis — Yeddo Euonymus 8 ft.**

A broad-headed shrub with good foliage and attractive pink fruit.

In type of growth it is much like Euonymus alatus and makes a very satisfactory massing shrub.

18 to 24 inches .....	1.80	15.00
2 to 3 feet .....	2.30	20.00
3 to 4 feet .....	2.80	25.00
4 to 5 feet .....	3.30	30.00

**FORSYTHIA fortunei — Fortune's Forsythia 8-10 ft.**

Upright shrub with arching branches. Yellow flowers early in April.

2 to 3 feet .....	(\$110.00 per 1000)	1.60	13.00
3 to 4 feet .....	(\$130.00 per 1000)	1.90	16.00
4 to 5 feet .....		2.30	20.00

**intermedia — Border Forsythia 8-10 ft.**

A vigorous and free-flowering shrub with arching branches, hardiest of the Forsythias.

18 to 24 inches .....		1.30	10.00
2 to 3 feet .....	(\$110.00 per 1000)	1.60	13.00
3 to 4 feet .....	(\$130.00 per 1000)	1.90	16.00
4 to 5 feet .....		2.30	20.00

**Dwarf Forsythia 2-3 ft.**

A very attractive new dwarf shrub forming a broad compact somewhat spreading plant.

12 to 15 inches .....	1.60	13.00
15 to 18 inches .....	2.00	17.00
18 to 24 inches .....	2.75	22.50

**intermedia spectabilis — Showy Border Forsythia 8-10 ft.**

An improved form of Forsythia intermedia with larger showier flowers.

18 to 24 inches .....	1.40	11.00
2 to 3 feet .....	1.70	14.00
3 to 4 feet .....	2.00	17.00

**suspensa — Weeping Forsythia 6-8 ft.**

Shrub with long vine-like pendulous branches, excellent for massing and bank plantings.

2 to 3 feet .....	1.80	15.00
3 to 4 feet .....	2.10	18.00
4 to 5 feet .....	2.50	22.00

## DECIDUOUS SHRUBS — CONTINUED

Fringe-tree, White — See *Chionanthus virginica*.

Fringe, Purple — See *Rhus cotinus*.

**HAMAMELIS virginica — Witchhazel 10-12 ft.**

A large native shrub which grows particularly well in semi-shady places. Bright yellow flowers in the Fall after the leaves have fallen.

	Per 10	Per 100
18 to 24 inches .....	2.30	20.00
2 to 3 feet .....	2.80	25.00

Hazelnut — see *Corylus americana*.

Hibiscus — see *Althaea*.

Honeysuckle — see *Lonicera*.

**HYDRANGEA arborescens grandiflora — Hills of Snow 5-6 ft.**

Large, snowball-like heads of white flowers in June and July. Prefers moist and partly shady places..

12 to 18 inches .....	1.50	12.00
18 to 24 inches .....	1.90	16.00
2 to 3 feet .....	2.30	20.00

**paniculata grandiflora — Pee Gee Hydrangea 8-10 ft.**

Large paniced heads of showy white flowers in August, which fade thru pink to brown and remain on the plants until frost. The true large-flowered type.

12 to 18 inches .....	1.50	12.00
18 to 24 inches .....	1.90	16.00
2 to 3 feet .....	2.50	22.00
2½ to 3 feet heavy .....	2.90	26.00
3 to 3½ feet heavy .....	3.50	30.00

**ILEX verticillata — Winterberry or Black Alder 6-8 ft.**

A hardy slow-growing shrub of the Holly family with bright red berries that last well into the Winter. Prefers moist locations.

18 to 24 inches .....	2.30	18.00
2 to 3 feet .....	2.80	25.00
3 to 4 feet .....	3.50	

Kerria, White — see *Rhodotypos*.

**KOLKWITZIA amabilis — Beauty Bush 6-8 ft.**

A large shrub with slender graceful arching branches and pink weigela-like flowers early in June.

15 to 18 inches .....	2.10	18.00
18 to 24 inches .....	2.90	26.00
2 to 3 feet .....	3.80	35.00

**LIGUSTRUM amurense — Amoor River North Privet**

Northern grown transplanted heavily branched stock that was all cut back to the ground last Spring.

12 to 18 inches, 3 canes and up .....	(\$35.00 per 1000)	.60	4.50
12 to 18 inches, 8 canes and up .....	(\$45.00 per 1000)	.75	5.50
18 to 24 inches, 4 canes and up .....	(\$50.00 per 1000)	.80	6.00
18 to 24 inches, 8 canes and up .....	(\$60.00 per 1000)	1.00	7.00
2 to 3 feet, 4 canes and up .....	(\$60.00 per 1000)	1.00	7.00
2 to 3 feet, 8 canes and up .....	(\$75.00 per 1000)	1.20	9.00

**ibota regalianum — Regal's Prostrate Privet**

The true low-growing spreading type, grown from cuttings; a low dense many-branched shrub, fine for low mass plantings. These plants are very heavily branched.

15 to 18 inch spread .....		1.50	12.00
18 to 24 inch spread .....	(\$140.00 per 1000)	1.90	16.00
24 to 30 inch spread .....	(\$180.00 per 1000)	2.50	22.00
30 to 36 inch spread .....	(\$225.00 per 1000)	3.00	27.00

Lilac — see *Syringa*.

**LONICERA bella rosea — Pink Belle Honeysuckle 7-8 ft.**

A spreading upright grower of medium height. Bright pink flowers and red fruits.

18 to 24 inches .....		1.30	10.00
2 to 3 feet .....	(\$120.00 per 1000)	1.70	14.00
3 to 4 feet .....	(\$160.00 per 1000)	2.10	18.00

## DECIDUOUS SHRUBS — CONTINUED

**LONICERA grandiflora rosea — Bride Honeysuckle 10-12 ft.**

One of the best of the many upright bush Honeysuckles. Bright pink flowers and red fruits.

	Per 10	Per 100
18 to 24 inches .....	1.30	10.00
2 to 3 feet .....	(\$120.00 per 1000) 1.70	14.00
3 to 4 feet .....	(\$160.00 per 1000) 2.10	18.00

**korolkowi floribunda — Blue-leaf Honeysuckle 8-10 ft.**

An attractive broad shrub with horizontal branches and blue-green foliage.

2 to 3 feet .....	4.00	
-------------------	------	--

**morrowi — Morrow's Honeysuckle 8-9 ft.**

One of the best of the bush Honeysuckles for massing. An upright shrub with a horizontal spreading habit of branching. Yellow and white flowers.

18 to 24 inches .....	1.30	10.00
2 to 3 feet .....	1.70	14.00
3 to 4 feet .....	2.10	18.00

**syringantha wolfei — Wolf Honeysuckle 4-5 ft.**

A little known tho very attractive Honeysuckle, with twiggy spreading or drooping branches and narrow blue-green leaves. The tubular pinkish-lilac blooms, borne chiefly in May but scatteringly throughout the Summer, are very fragrant.

18 to 24 inches .....	2.10	18.00
2 to 3 feet .....	2.60	22.50
3 to 3½ feet .....	3.25	27.50

**tatarica rosea — Pink Tatarian Honeysuckle 10-12 ft.**

A very hardy and vigorous grower, best known of the bush Honeysuckles. Bright pink flowers and red fruits.

18 to 24 inches .....	(\$ 80.00 per 1000) 1.30	10.00
2 to 3 feet .....	(\$120.00 per 1000) 1.70	14.00
3 to 4 feet .....	(\$150.00 per 1000) 2.00	17.00

**tatarica siberica — Red Tatarian Honeysuckle 8-10 ft.**

The most upright in growth of all of the Honeysuckles, but a slower grower than the Pink Tatarian. The bloom is a deep rosy-pink.

18 to 24 inches .....	(\$ 80.00 per 1000) 1.30	10.00
2 to 3 feet .....	(\$120.00 per 1000) 1.70	14.00
3 to 4 feet .....	(\$150.00 per 1000) 2.10	17.00

**MAHONIA aquilifolium — Oregon Hollygrape 3-4 ft.**

A handsome shrub with dark green shining leaves that turn purplish in the Fall. Very showy and attractive bluish-black fruits in the Summer. Evergreen further south, but sheds its leaves in this latitude.

12 to 15 inches, B&B .....	7.50	
15 to 18 inches, B&B .....	10.00	
18 to 24 inches, B&B .....	15.00	

Mock-orange — see *Philadelphus*.

Moss-locust — see *Robina hispida*.

Ninebark — see *Physocarpus*.

Pea-tree — see *Caragana*.

**PHILADELPHUS coronarius — Sweet Mock-orange 10 ft.**

The large-flowered type of the old-fashioned sweet-scented Mock-orange.

18 to 24 inches .....	1.30	10.00
2 to 3 feet .....	(\$110.00 per 1000) 1.60	13.00
3 to 4 feet .....	(\$140.00 per 1000) 2.00	17.00

**Norma 7-8 ft.**

A fine upright growing hybrid with long clusters of large glossy-white single to semi-double flowers.

3 to 4 feet .....	2.50	22.00
4 to 5 feet .....	3.00	27.00

## DECIDUOUS SHRUBS — CONTINUED

**PHILADELPHUS virginalis** — Virginal Mock-orange 7-8 ft.

The most popular of all of the hybrid Mock-oranges. A rather open grower of medium height. The flowers are very large, semi-double to double, pure white, and very fragrant. Blooms very freely in the Spring and sparingly all thru the Summer.

	Per 10	Per 100
12 to 18 inches .....	2.00	17.00
18 to 24 inches .....	2.60	22.50

3 to 4 feet .....	2.10	18.00
4 to 5 feet .....	2.50	22.00

**opulifolius nanus** — Dwarf Ninebark 4-5 ft.

A very neat small shrub, closely resembling the parent, but smaller in every way. The leaves are small, closely resembling those of *Ribes alpinum*.

15 to 18 inches .....	1.40	11.00
18 to 24 inches .....	1.70	14.00
2 to 2½ feet .....	2.10	18.00

Plum, Double-flowering — see *Prunus triloba*.

Privet — see *Ligustrum* on page 20.

**PRUNUS glandulosa rosea** — see Almond, Pink Flowering

~~Purple~~leaved — see under Deciduous Trees on pages 12 and 13.

**triloba** — Double-flowering Plum 7-8 ft.

A handsome, vigorous, and very hardy large shrub producing a wealth of large double pink flowers before the leaves in the Spring. We offer plants both on their own roots and budded on native Plum understocks.

4 to 5 feet, on Plum .....	4.00	35.00
5 to 6 feet, on Plum .....	5.00	
3 to 4 feet, own root .....	4.00	
4 to 5 feet, own root .....	4.50	40.00

Quince, Japanese Flowering — see *Cydonia japonica*.

Red-bud — see *Cercis canadensis* on page 7.

**RHODOTYPOS kerrioides** — Jetbead or White Kerria 4-5 ft.

18 to 24 inches .....	2.10	18.00
-----------------------	------	-------

**RHUS canadensis (Rhus aromatica)** — Fragrant Sumac 4-5 ft.

A fine low massing shrub with dark green aromatic foliage that turns orange and scarlet in the Fall.

18 to 24 inches .....	1.90	16.00
2 to 3 feet .....	2.50	22.00
3 to 4 feet .....	3.00	27.00
4 to 5 feet .....	4.00	35.00

**cotinus** — Purple Fringe 10-15 ft.

A large shrub of rapid growth, fine for specimen and large mass plantings. The plant is covered in the Fall with large panicles of very fine smoky-purple flowers.

18 to 24 inches .....	2.80	25.00
2 to 3 feet .....	3.80	35.00

**typhina laciniata** — Fern-leaved or Shredded Sumac 10 ft.

One of the most handsome of the taller Sumacs, with very finely cut foliage that turns yellow and scarlet in the Fall.

18 to 24 inches .....	1.30	10.00
2 to 3 feet .....	1.70	14.00
3 to 4 feet .....	2.30	20.00

## DECIDUOUS SHRUBS — CONTINUED

**ROBINIA hispida** — Rose Acacia or Moss Locust 6 ft.

A shrub Locust with very attractive foliage, bearing a profusion of rosy pink flowers in May. Grafted to prevent suckering.

3 to 4 feet .....	3.50	Per 10	Per 100
-------------------	------	--------	---------

**kelseyi** — Kelsey's Rose-flowered Locust 6 ft.

A very graceful and handsome shrub, probably the best of the shrub-form flowering locusts; better in form of growth and showier in flower than *Robinia hispida*. Flowers large, purplish rose.

18 to 24 inches .....	2.30	20.00
2 to 3 feet .....	2.80	25.00
3 to 4 feet .....	3.50	

**ROSA blanda** — Meadow Rose 4-5 ft.

3 to 4 feet .....	2.20	18.00
-------------------	------	-------

**lucida (Rosa virginiana)** — Virginia Rose 5-6 ft.

3 to 4 feet .....	2.20	18.00
-------------------	------	-------

**rugosa rubra** — Japanese Ramanas Rose 3-5 ft.

3 to 4 feet .....	2.60	22.00
-------------------	------	-------

**setigera** — Prairie Rose 4-6 ft.

One of the most attractive of the native massing Roses with long arching branches and attractive large single pink flowers.

2 year No. 1, 2 to 3 feet .....	1.70	14.00
3 year No. 1, 3 to 4 feet .....	2.20	18.00

Russian Olive — see *Elaeagnus angustifolia*.

**SAMBUCUS canadensis acutifolia** — Cut-leaved Elder 8-10 ft.

3 to 4 feet .....	1.90	16.00
4 to 5 feet .....	2.30	20.00

**nigra aurea** — Golden-leaved Elder 10 ft.

The foliage is a bright golden yellow which holds its depth of color throughout the season if planted in full sun.

3 to 4 feet .....	2.30	20.00
4 to 5 feet .....	2.70	24.00
5 to 6 feet .....	3.30	30.00

Snowball — see *Viburnum opulus sterile*.

Snowberry — see *Symphoricarpos*.

**SORBARIA sorbifolia** — Ash-leaved Spirea or Ural False Spirea

2 to 3 feet .....	1.70	14.00
3 to 4 feet .....	2.10	18.00

**SPIRAEA Anthony Waterer** 3-4 ft.

A well known dwarf shrub with numerous heads of bright red flowers thru the Summer.

18 to 24 inches .....	2.70	24.00
24 to 30 inches .....	3.20	28.00
30 to 36 inches .....	3.80	35.00

**callosa alba (S. japonica)** — Japanese White Spirea 2-3 ft.

Similar to *Spiraea Anthony Waterer* but with yellow green foliage and white flowers.

18 to 24 inches .....	2.10	18.00
24 to 30 inches .....	2.30	20.00
30 to 36 inches .....	2.80	25.00

**arguta** — Snowgarland 5-6 ft.

An upright hardy shrub with narrow light green foliage, which produces a wealth of small white flowers before the leaves in the Spring. Similar to, but more vigorous in growth than *Spiraea thunbergii*.

2 to 3 feet .....	1.50	12.00
3 to 4 feet .....	1.80	15.00
4 to 5 feet .....	2.40	20.00

**froebeli** — Froebel Spirea 4-ft.

Similar in type of growth to *Spiraea Anthony Waterer* but a slightly taller and hardier plant. Flowers deep rose-red. Foliage turns brilliant red in the Fall.

12 to 15 inches .....	1.30	10.00
15 to 18 inches .....	1.50	12.00
18 to 24 inches .....	2.00	17.00
2 to 2½ feet .....	2.50	22.00

## DECIDUOUS SHRUBS — CONTINUED

**SPIRAEA prunefolia plena — Double Bridalwreath 5-6 ft.**

The true Bridalwreath, with small plum-like leaves and very double white flowers borne in few-flowered umbels. Free-flowering. Per 10			Per 100
2 to 3 feet	2.50		22.00
3 to 4 feet	3.30		30.00

**thunbergii — Thunberg's Garland Spirea 3-4 ft.**

Dwarf shrub with slender spreading branches and feathery light green foliage. Covered with a wealth of small white flowers before the leaves in the Spring.

18 to 24 inches	1.70		14.00
2 to 2½ feet	1.90	(\$130.00 per 1000)	16.00
2½ to 3 feet	2.10	(\$150.00 per 1000)	18.00
3 to 3½ feet	2.50		22.00

**trichocarpa — Korean Spirea 5 ft.**

One of the newer Spiraeas, quite similar to Spiraea Van Houttei in growth and type of bloom. The blooms, however, are larger and showier and appear about two weeks later.

2 to 3 feet	1.80		15.00
3 to 4 feet	2.30		20.00

**Van Houttei — commonly known as Bridalwreath 6-7 ft.**

One of the most graceful and most easily grown of all massing shrubs; small white flowers in clusters cover the plants in the early Spring.

18 to 24 inches	1.00		7.50
2 to 3 feet	1.50	(\$100.00 per 1000)	10.00
3 to 4 feet	1.90	(\$140.00 per 1000)	16.00
4 to 5 feet	2.10		18.00

Sumac — see Rhus.

**SYMPHORICARPOS chenaulti — Spotted Snowberry 4-5 ft.**

The best and most handsome of the Snowberries. A new hybrid with small leaves and white fruit spotted with pink.

18 to 24 inches	1.20	(\$ 75.00 per 1000)	9.00
2 to 3 feet	1.40	(\$ 90.00 per 1000)	11.00
3 to 4 feet	1.70	(\$125.00 per 1000)	14.00

**racemosus — White Snowberry 4-5 ft.**

An upright shrub, particularly adapted to planting in shaded places. Waxy-white berries in the Fall.

2 to 3 feet	1.40	(\$ 90.00 per 1000)	11.00
3 to 4 feet	1.70		14.00

**vulgaris — Red Snowberry or Coralberry 4-5 ft.**

A low spreading shrub that does well in shaded places. One of the best that we have for holding steep banks.

18 to 24 inches	1.10	(\$ 65.00 per 1000)	8.00
2 to 3 feet	1.40	(\$ 85.00 per 1000)	11.00
3 to 4 feet	1.70	(\$110.00 per 1000)	14.00

**SYRINGA japonica — Japanese Tree Lilac 18-20 ft.**

A very large shrub, attaining the proportions of a small tree. Large panicles of creamy white flowers in July long after the bloom of all other Lilacs is gone.

18 to 24 inches	2.50		22.00
2 to 3 feet	3.20		28.00
3 to 4 feet	4.00		

**persica (rothomagensis) — Persian Lilac 8-10ft.**

An upright vigorous grower, the most free-flowering of all of the Lilacs. Flowers deep purplish red in very large heads. This variety should properly be called Chinese Lilac. (Syringa rothomagensis), as the true Persian Lilac is a small weak grower with pale lilac flowers and is practically unknown in the nursery trade.

18 to 24 inches	2.00		
2 to 3 feet	2.30	(\$180.00 per 1000)	20.00
3 to 4 feet	2.80	(\$220.00 per 1000)	25.00
4 to 5 feet	3.60		32.00

villosa, vulgaris and vulgaris alba — see page 29.

Hybrid Lilacs — see pages 25 to 28.

## FRENCH LILACS

For a number of years we have been specializing in the growing of French Lilacs and are propagating from a long list of varieties covering a wide range of color and form, a list that contains the better and more popular of the older varieties as well as many of the newer and finer types.

**OWN-ROOT Plants:**—The Lilacs which we offer here are own-root plants. Our French Lilacs are propagated by grafting on small pieces of Privet root, not by budding on Privet or Common Lilac. The grafts are often planted deep, both in the bed and when transplanted to the nursery row. When grown in this manner the Privet acts as a nurse root for the Lilac scion until such time as the Lilac can develop its own root system. When that is accomplished, it soon overgrows the Privet and the Privet dies off—in fact on some varieties we are even able to remove the Privet root when transplanting from the beds into the field. There is of course quite a little difference in how long it takes for the different varieties to go onto their own roots, but any of our plants which have been grown in the field two years after transplanting are at least started on their own roots.

Own-root plants have the marked advantage over budded plants in that they are perfectly hardy and therefore much longer lived, and that all of the sprouts from the roots will be true to variety. Many nurserymen propagate French Lilacs by budding above the ground on California Privet, or, tho much less frequently, on Common Lilac stocks. Plants budded on Privet are almost invariably short lived unless the plant is set low enough in the ground when transplanted so that the Lilac can develop its own roots, a type of planting seldom accomplished with developed plants even by persons who understand the necessity for deep planting. If planted at the normal depth the plants are not root-hardy, as the tender Privet is apt to kill off during severe winters. Plants left too long on Privet roots are apt to develop a "graft blight" resulting from insufficient union with and overgrowth of the root stock by the scion. Buds on Common Lilac, on the other hand, are root-hardy and make a good union, but the root stocks invariably sprout. Such sprouts, being hard to distinguish from the budded variety and also usually being of stronger growth, often drown out the buds.

In order to facilitate pricing, we have divided the Lilacs which we are offering into five price groups.

We can furnish small quantities of some varieties and sizes not included in the following quantity lists.

For additional varieties of French Lilacs and Descriptive List and Color Classification see pages 26, 27, and 28.

### FRENCH LILACS - SPECIAL LIST

## SYRINGA HYACINTHIFLORA HYBRIDS

A comparatively new group of Lilac Hybrids, resulting from a cross between *Syringa vulgaris* and *Syringa oblata* or, more frequently, its variety, *Syringa oblata* Giraldu. The group is characterized by its rapid growth and very early blooming period, blooming about ten days to two weeks ahead of the Common Lilacs. The individual flowers are large and sweet-scented and the flower clusters are also very large, often a foot long.

	Per 10		Per 100

## FRENCH LILACS - DESCRIPTIVE LIST

- Alphonse Lavelle — flowers double, of medium size, clear lavender-violet, deeper within than without. Clusters large, shapely, and compact. A splendid variety.
- Buffon — single, very attractive mauve-pink flowers with reflexed lobes.
- Charles Joly — flowers double, quite large, very dark violet-purple with silvery reflex; clusters open, of medium size. An old variety, but still one of the best all-around double dark reds.
- Charles X — an old free-flowering favorite. Flowers single, of medium size, reddish-violet; compact clusters of medium size. One of the most free-flowering of all of the French Lilacs.
- Claude Bernard — long panicles of double or semi-double bright mauve lilac flowers.
- Congo — single flowers in large open clusters. An old and very popular variety, very deep reddish purple without, lighter within the corolla.
- De Croncels — single flowers of medium size in open pyramidal clusters; a fine bright red in bud expanding to lilac-red.
- De Mirable — flowers single, large, very dark bluish-violet; clusters large. An outstanding bloom and one of our darkest Lilacs, but the plant is slow-growing and rather dwarf.
- Decartes — large panicles of single mauve pink flowers, extra floriferous. The color comes nearer to a clear pink than that of any other Hyacinthiflora variety.
- Desfontaines — flowers large, double, violet-blue; in very large open clusters. A conspicuous variety of excellent growth characteristics and a good clear color.
- Diderot — flowers single, extra large, very deep red; in long, large clusters. A very fine bloom and an outstanding example of the modern showy Lilac, but, like many of the darker Lilacs, is a slow dwarf grower.
- Edouard Andre — double flowers of medium size in open much-branched clusters; clear rose, or nearly pink. One of the best of the pink Lilacs.
- Emile Lemoine — double well-formed flowers of medium size in large open clusters. As near an approach to pure pink as is usually found in Lilacs.
- Frau Bertha Dammann — single white flowers of medium size in unusually large open clusters.
- Frau Wilhelm Pfitzer — large single flowers in long open clusters; pale bluish-violet. A strong thrifty plant and an excellent variety.
- Gen. Sherman — large many-shouldered upright clusters of single flowers which are of varying shades of porcelain lavender.
- Hugo Koster — single, bluish-violet to light reddish-purple, flowers and clusters both very large. One of the best of the single Lilacs, distinct and attractive.
- Jan Van Tol — single, very fragrant, pure white. A dwarf stocky grower with enormous individual flowers in very large symmetrical clusters. An outstanding variety, particularly in the size of the flowers.
- Jean Mace — large double flowers in large and very compact clusters; bluish-mauve. A fine variety with an unusually good thrifty habit of growth, one of the most free-flowering of the French Lilacs.
- Jeanne d'Arc — large double white flowers in long open clusters. A very fine and showy variety. Plant rather dwarf and a late bloomer.
- Katherine Havemeyer — flowers large, double, in large compact clusters; cobalt blue flushed mauve. A splendid variety both in flower and growth characteristics, destined to be one of the most popular of the "blue" lilacs.
- La Tour d'Auvergne — flowers large, double, and star-shaped, in open narrow clusters of variable size; dark red in bud opening dark purplish violet.
- Leon Gambetta — double, lilac-rose; both individual flowers and the trusses are very large. An outstanding variety, though one of the hardest to grow.
- Lamartine — one of the earliest to bloom; single, extremely large trusses of beautiful pale pink flowers.
- La Mauve — double; pale lilac-pink flowers in long narrow clusters.
- Louvois — extremely large clusters of large single flowers; deep violet-purple with bluish shades.
- Ludwig Spaeth — flowers single, large, in large well-filled clusters; very deep maroon-red. Very free-blooming, and of strong thrifty growth. A very popular variety and without question the best all-around single dark lilac.
- Mme. Casimir Perier — large double creamy white flowers in large well-filled clusters. A very satisfactory double white that may be depended upon to bloom freely each year.
- Mme. Lemoine — flowers large, double pure white; clusters narrow, medium to large. One of the most satisfactory and popular of the double whites, and a very dependable bloomer.
- Mme. Leon Simon — flowers large, double, in fine large open clusters; lilac-pink. Strong narrow upright grower.
- Marechal Lannes — flowers semi-double to double, exceptionally large; in large, full, erect clusters; bluish-violet. A choice and very showy variety.
- Marie LeGraye — flowers large, single, creamy white; clusters of medium size. A strong, erect and very profuse bloomer.
- Maurice Barres — flowers single, very large, pale azure lilac; large open clusters. A very handsome and showy variety.
- Michael Buchner — flowers double, medium to large, pinkish-lilac; long narrow clusters. One of the best known and most popular varieties.

## FRENCH LILACS — Descriptive List Continued

- Miss Ellen Willmott — flowers large, double to very double, creamy white; in very large and long panicles. A strong grower and very free bloomer, generally rated as the best of the double white Lilacs.
- Mont Blanc — flowers white, single, very large; in long well-filled clusters. A very showy and beautiful variety that we consider the best of the single white Lilacs.
- Montaigne — flowers very large and double; in long narrow clusters; mauve pink. A fine variety of strong growth.
- Pascal — very free-flowering; single, a fine light mauve-pink.
- Paul Therion — large double flowers in very large and showy well-filled clusters; rosy-lavendar tinged claret, much resembling large double violets. A very fine and showy variety.
- Pres. Carnot — flowers large, double, light lilac blue; in long narrow clusters. A free-blooming strong-growing variety of very good color.
- Pres. Faillieres — large, pale, lavender flowers in very large clusters. An outstanding variety with good growth characteristics and showy flowers.
- Pres. Grevy — flowers large, semi-double to double, in large pyramidal clusters; a clear soft delicate blue. An old variety that is still one of the best of its color.
- Pres. Lincoln — flowers single, medium in size, in long open narrow-pyramidal clusters; wedge-wood blue, an unusual color in lilacs and probably the nearest to a true blue.
- Reamur — flowers single, very large, violet-carmine and satiny-rose; in long well-filled clusters. A very choice dark Lilac, but a slow and rather poor grower.
- Rhum von Horstenstein — flowers very large, single, in long narrow trusses; an even dark reddish purple. A very promising free-blooming new variety.
- Renoncule (*Ranunculata*) — flowers fragrant, double, of medium size, in narrow compact clusters; a pleasing even blue. Free flowering and a strong grower.
- Vauban — flowers double, sometimes semi-double, light lilac-pink though much darker in bud.
- Ville de Limoges — single flowers of medium size in well-filled pyramidal clusters; mauve-pink. One of the most fragrant of all Lilacs.
- Waldeck Rosseau — double flowers of medium size, in large, long, many-branched clusters; deep violet, darker within than without. A very pleasing variety.
- William Robinson — flowers double, large, in large open irregular clusters; deep red in bud expanding to light crimson.

**CLASSIFICATION TO COLOR:**—As it is almost impossible to describe colors of flowers, particularly in a long list of similar varieties, so as to really give a good idea of color tones, we have divided the Lilacs on our list into seven general color groups so as to aid in color classification. It should also be remembered that there is a decided difference in the form of the individual Lilac flowers, as well as in the shape and size of the trusses or clusters. Also that there is often a decided difference in the growth characteristics of the different varieties.

**White Varieties**

Single Varieties — Frau Bertha Dammann, Jan Van Tol, Marie LeGraye, Mont Blanc.

Double Varieties — Edith Cavell, Jeanne d'Arc, Mme. Caşimir Perier, Mme. Lemoine, Miss Ellen Willmott.

**Pink Shades**

Single Varieties — Buffon, Descartes, Lamartine, Ville de Limoges.

Double Varieties — Emile Lemoine, Edouard Andre, La Mauve, Leon Gambetta, Mme. Leon Simon.

**Red Shades**

Single Varieties — Congo, DeCroncels, Diderot, Ludwig Spaeth, Reamur, Rhum von Horstenstein.

Double Varieties — Adelaide Dunbar, Charles Joly, La Tour d'Auvergne, Mrs. Edward Harding, Paul Therion, William Robinson.

**Blue Shades**

Single Varieties — Pres. Lincoln.

Double Varieties — Desfontaines, Jean Mace, Katherine Havemeyer, Pres. Carnot, Pres. Grevy, Renoncule.

**Light Lilac Shades**

Single Varieties — Gen. Sherman, Maurice Barres.

Double Varieties — Frau Wilhelm Pfitzer, Pres. Faillieres, Vauban.

**Dark Lilac Shades**

Single Varieties — Charles X, Hugo Koster, Pascal.

Double Varieties — Claude Bernard, Michael Buchner, Montaigne.

**Violet Shades**

Single Varieties — De Mirabel, Louvois.

Double Varieties — Alphonse Laval, Marechal Lannes, Waldeck Rosseau.

## DECIDUOUS SHRUBS — CONTINUED

**SYRINGA villosa** — Late Lilac or Pink Lilac 8-10 ft.

A bushy, compact shrub of rapid growth, producing a profusion of rosy-pink flowers in June after the Common Lilacs are gone

	Per 10	Per 100
18 to 24 inches .....	1.80	15.00
2 to 3 feet .....	2.30	20.00
3 to 4 feet .....	3.00	
4 to 5 feet .....	4.00	

**vulgaris** — Common Purple Lilac 12-15 ft.

18 to 24 inches .....	1.70	14.00
2 to 3 feet .....	2.00	17.00
3 to 4 feet .....	2.30	20.00
4 to 5 feet .....	3.50	30.00

**vulgaris alba** — Common White Lilac 12-15 ft.

18 to 24 inches .....	1.80	15.00
2 to 3 feet .....	2.30	20.00

**TAMARIX hispida** — Kashgar Tamarix 12-15 ft.

The best hardy Tamarix. Slow-growing, compact and upright, with feathery silvery-green foliage and long panicles of bright pink bloom over a long season in early summer.

18 to 24 inches .....	1.20	9.00
2 to 3 feet .....	1.50	12.00
3 to 4 feet .....	1.80	15.00
4 to 5 feet .....	2.10	18.00

**VIBURNUM americanum** — American Cranberrybush 8-10 ft.

Very similar to the European High-bush Cranberry, but a more handsome plant. Profusion of orange-scarlet berries in the Fall.

18 to 24 inches .....	2.30	20.00
2 to 3 feet .....	2.80	24.00
3 to 4 feet .....	3.30	30.00
4 to 5 feet .....	4.50	40.00

**dentatum** — Arrow-wood 8-10 ft.

An upright shrub of dense growth, very good for massing where a medium to tall shrub can be used. Does well on north sides and in partial shade.

2 to 3 feet .....	2.00	17.00
3 to 4 feet .....	2.50	22.00
4 to 5 feet .....	3.00	27.00

**lantana** — Wayfaring Tree—10-12 ft.

A handsome large shrub of upright growth with soft thick foliage that turns scarlet in the Fall. Attractive flowers and fruits.

18 to 24 inches .....	1.70	14.00
2 to 3 feet .....	2.10	18.00
3 to 4 feet .....	2.50	22.00
4 to 5 feet .....	3.50	30.00

**lentago** — Nannyberry 15-18 ft.

A tall upright massing shrub with dark green leaves that turn scarlet in the Fall. Large blue-black fruit.

18 to 24 inches .....	2.10	18.00
2 to 3 feet .....	2.80	25.00
3 to 4 feet .....	3.50	30.00
4 to 4½ feet .....	4.50	40.00

**opulus** — European High-bush Cranberry 10 ft.

A well known tall hardy shrub, with large clusters of scarlet fruit in the Fall that remain on the plant until late in the Winter.

18 to 24 inches .....	2.30	20.00
2 to 3 feet .....	2.70	24.00
3 to 4 feet .....	3.50	30.00
4 to 5 feet .....	4.50	40.00

## DECIDUOUS SHRUBS — CONTINUED

<b>VIBURNUM opulus sterile — Common Snowball</b> 10 ft.			
The well-known old-fashioned Snowball.		Per 10	Per 100
12 to 18 inches .....		1.80	15.00
18 to 24 inches .....		2.30	20.00
2 to 3 feet .....		2.70	24.00
3 to 3½ feet .....		3.60	32.00
<b>WEIGELA Eva Rathke — Red-flowered Weigela</b> 4-5 ft.			
Brilliant crimson flowers, a very profuse bloomer.			
2 to 3 feet .....		2.50	22.00
3 to 3½ feet .....		3.00	27.00
3 to 4 feet .....		3.80	
<b>floribunda rubra — Crimson Weigela</b> 6-8 ft.			
A stronger and more desirable grower than Weigela Eva Rathke, but does not bloom as profusely. Dark crimson flowers.			
18 to 24 inches .....		1.90	16.00
2 to 3 feet .....		2.30	20.00
3 to 4 feet .....		3.00	27.00
<b>rosea — Pink Weigela</b> 7-8 ft.			
Best known of all of the Weigelas, with very showy flowers in late May.			
18 to 24 inches .....		1.40	11.00
2 to 3 feet .....		1.80	15.00
3 to 4 feet .....		2.30	20.00

Witch-hazel — see Hamamelis.

## CLIMBING VINES

<b>AMPELOPSIS engelmanni — Engelman Creeper</b>			
A lighter growing type of the well-known Virginia Creeper with sucker-discs that permit it to climb on stone and brick; very hardy.		Per 10	Per 100
3 year No. 1 .....		\$ 1.50	\$ 12.00
2 year No. 1 .....	(\$75.00 per 1000)	1.20	9.00
2 year medium .....	(\$60.00 per 1000)	1.00	7.00

2 year No. 1 .....	(\$75.00 per 1000)	1.20	9.00
2 year medium .....	(\$60.00 per 1000)	1.00	7.00
<b>veitchii (Ampelopsis tricuspidata) — Boston Ivy</b>			
The best known and most popular of the stone climbers; attractive foliage that turns brilliant crimson in the Fall.			
2 year Extra Heavy, 2 to 3 feet .....		2.30	20.00
2 year No. 1, 18 to 24 inches .....	(\$150.00 per 1000)	2.10	18.00
2 year medium, 12 to 18 inches .....	(\$120.00 per 1000)	1.70	14.00
<b>CELASTRUS orbiculatus — Japanese Bittersweet</b>			
More vigorous in growth than the Native Bittersweet and fruits more profusely, but the berries are much smaller. Blue-green foliage and showy orange-red fruits.			
2 year Extra Heavy .....		1.50	13.00
2 year No. 1 .....		1.40	11.00
<b>scandens — Native Bittersweet</b>			
Yellow-green foliage and very showy large orange-red fruits.			
2 year Extra Heavy .....		2.00	17.00
2 year No. 1 .....	(\$110.00 per 1000)	1.60	13.00
2 year medium .....		1.40	11.00
<b>CLEMATIS — Large-flowering Hybrids</b>			
2 year No. 1, dormant .....		4.00	35.00
Duchess of Edinburgh — double, pure white.			
Henryii — single, pure white.			
Jackmanni — rich purple.			
Mme. Edouard Andre — carmine violet.			
<b>paniculata — Sweet Autumn Clematis</b>			
2 year No. 1 .....		1.90	16.00
2 year Extra Heavy .....		2.30	20.00

All orders are booked subject to our regular Terms and Conditions of Sale as printed on pages 2 and 3. These should be carefully noted as we cannot vary from them.

## CLIMBING VINES — CONTINUED

**LONICERA japonica Halliana — Hall's Japan Honeysuckle**

A very vigorous and rapid grower, much used as a ground cover on banks, etc. Flowers yellow to white, very fragrant, borne profusely throughout the Summer.

	Per 10	Per 100
2 year No. 1 .....	1.60	12.50

**POLYGONUM aubertii — China Fleece-vine**

A light but very vigorous and rapid grower, covered by a wealth of foamy sprays of small white flowers during the late Summer and early Fall.

2 year No. 1 .....	3.50	30.00
--------------------	------	-------

**VITIS aestivalis — Summer Grape**

A very vigorous climbing vine, most common of the native wild grapes.

3 year No. 1 .....	1.70	14.00
2 year No. 1 .....	1.30	10.00

**WISTARIA chinensis — Purple Chinese Wistaria**

We offer the Wistarias both as seeding plants and as plants grafted from blooming wood of good flowering plants. There is quite a little difference in the blooming ability of different Wistaria plants, and the grafted plants are by far the best to plant where bloom is desired.

Seedlings, 2 year No. 1 .....	1.50	12.00
Grafted from blooming wood, 2 year No. 1 .....	2.50	22.00
<b>sinensis alba — White Chinese Wistaria</b>		
Grafted from blooming wood, 2 year No. 1 .....	2.80	25.00

---

**EVERGREENS**

Prices quoted are for specimen plants that have been regularly transplanted and carefully grown and sheared, suitable for the best landscape work. Unless otherwise instructed, we dig all of our Evergreens B&B. We always dig fresh for each order.

Where customers wish to make special selection of Evergreens and mark trees in the nursery, we will be glad to reserve such trees for them, but an additional charge depending on value, usually between 10% and 20%, will be made. Where such selections are not for immediate shipment, a deposit of 25% of the order will be required to guarantee acceptance.

**JUNIPERUS chinensis Keteleeri — Keteleer Juniper 15-18 ft.**

A splendid type of formal pyramidal outline, compact in growth and very bushy. The leaves are scale-like and very dark green in color. Formerly classified as a variety of *Juniperus virginiana*, but now considered as a variety of *Juniperus chinensis*.

	Each	Per 10	Per 100
2½ to 3 feet, B&B .....	\$ 2.10	\$ 20.00	\$
3 to 3½ feet, B&B .....	2.65	25.00	
3½ to 4 feet, B&B .....	3.25	30.00	
5 to 6 feet, B&B .....	4.75	45.00	
6 to 7 feet, B&B .....	5.50	52.50	

**chinensis mas (mascula) 18-20 ft.**

An especially attractive form of *Juniperus chinensis*, forming a broad densely conical tree with slender needle-like gray-green leaves and staminate flowers.

2½ to 3 feet, B&B .....	2.15	20.00
3 to 3½ feet, B&B .....	2.65	25.00
4 to 5 feet, B&B .....	3.75	35.00
5 to 6 feet, B&B .....	5.00	

---

Prices quoted are for wholesale quantities. Orders calling for less than five of a variety and size are not wholesale, but will be filled at an advance over printed rates as outlined on page 2.

## EVERGREENS — CONTINUED

**JUNIPERUS chinensis pfitzeriana — Pfitzer Juniper**

The best of the low-growing Junipers. It is perfectly hardy, thrives in almost any location, transplants easily, and is easily the most popular Evergreen of its type. A wide-spreading or broadly pyramidal plant with dark green foliage that has a distinct grayish cast.

	Each	Per 10	Per 100
12 to 15 inch spread, B&B .....	1.15	10.00	
15 to 18 inch spread, B&B .....	1.55	14.00	125.00
18 to 24 inch spread, B&B .....	2.10	19.00	175.00
24 to 30 inch spread, B&B .....	2.65	25.00	
30 to 36 inch spread, B&B .....	3.50	32.50	300.00

**chinensis pyramidalis glauca — Blue Chinese Column Juniper 20 ft.**

A tall columnar Juniper of rapid growth which will maintain its narrow compact shape with but little shearing. A very valuable plant for landscape plantings, as it grows very well in hot dry locations and is also immune to severe cold. The blue form has an attractive glaucous blue foliage.

2½ to 3 feet, B&B .....	2.15	20.00	
3 to 3½ feet, B&B .....	2.65	25.00	
3½ to 4 feet, B&B .....	3.25	30.00	
4 to 4½ feet, B&B .....	3.75	35.00	
4½ to 5 feet, B&B .....	4.50	42.50	

**chinensis sargentii — Sargent Juniper**

A prostrate form with creeping stems and ascending branches, forming a close dense mat.

15 to 18 inch spread, B&B .....	1.50	13.50	
18 to 24 inch spread, B&B .....	1.90	17.50	
24 to 30 inch spread, B&B .....	2.40	22.50	

**communis hibernica — Irish Juniper 10-12 ft.**

A very narrow columnar tree with upright branches, giving a very formal effect. We have an exceptionally fine block this year. All of the trees have been grown single stem.

2 to 2½ feet, B&B .....	1.25	11.00	
2½ to 3 feet, B&B .....	1.60	14.00	125.00
3 to 3½ feet, B&B .....	1.85	16.50	150.00

**communis depressa plumosa — Andorra Juniper**

A low-spreading and very hardy Juniper of rapid growth, seldom reaching a height of more than 15 to 18 inches, but making a considerable spread. The foliage is unusually attractive in both form and color.

15 to 18 inch spread, B&B .....	1.30	11.50	100.00
18 to 24 inch spread, B&B .....	1.70	15.50	140.00
24 to 30 inch spread, B&B .....	1.90	17.50	160.00

**excelsa stricta — Spiny Greek Juniper 4-5 ft.**

A slow-growing Evergreen with gray-green foliage that forms a compact well-shaped pyramid. Especially useful in formal plantings.

12 to 15 inches, B&B .....	1.15	10.00	
15 to 18 inches, B&B .....	1.60	14.00	125.00
18 to 24 inches, B&B .....	1.85	16.50	150.00
2 to 2½ feet, B&B .....	2.10	19.50	180.00

**horizontalis Douglassi — Waukegan Juniper**

A trailing Juniper with long branches that make it a very satisfactory ground cover. Steely-blue foliage that turns an attractive purple in the Winter.

18 to 24 inch spread, B&B .....	1.25	11.00	
24 to 30 inch spread, B&B .....	1.55	14.00	125.00
30 to 36 inch spread, B&B .....	1.80	16.50	150.00
4 to 5 foot spread, B&B .....	3.00	25.00	

## EVERGREENS — CONTINUED

**JUNIPERUS horizontalis glauca — Blue Creeping Juniper**

Similar to the Waukegan Juniper, but more compact in growth; bluish-green foliage.

	Each	Per 10	Per 100
42 to 48 inch spread, B&B .....	3.00	27.50	
48 to 54 inch spread, B&B .....	3.25	30.00	

**sabina — Savin Juniper 3-4 ft.**

A very good dwarf form with dark green foliage and spreading ascending branches, forming an irregular vase-shaped bush.

15 to 18 inch spread, B&B .....	1.40	12.50	
18 to 24 inch spread, B&B .....	1.75	15.50	140.00
24 to 30 inch spread, B&B .....	2.10	19.00	175.00

**sabina tamariscifolia — Tamarix Savin 1½-2 ft.**

A low spreading form, very compact in growth, with soft textured silvery green foliage.

12 to 15 inch spread, B&B .....	1.40	12.50	
15 to 18 inch spread, B&B .....	1.75	16.00	
18 to 24 inch spread, B&B .....	2.10	19.00	175.00
24 to 30 inch spread, B&B .....	2.40	22.50	

**scopulorum Chandleri — Chandler's Silver Juniper 20-25 ft.**

A selected form of the Colorado Juniper with frosty silvery-green whip-cord foliage of a striking color. An upright conical tree, the tips of the branches drooping.

2 to 2½ feet, B&B .....	1.75	16.00	145.00
2½ to 3 feet, B&B .....	2.20	20.00	180.00
3 to 3½ feet, B&B .....	2.60	24.00	225.00
3½ to 4 feet, B&B .....	3.00	27.50	

**squamata Meyeri — Meyer Juniper 3-4 ft.**

A dwarf tree of irregular upright growth and numerous short straight branches. The leaves are broad, plump, and a bright bluish green in color. A very handsome plant on account of its dense growth and foliage color.

12 to 15 inches, B&B .....	1.40	12.50	110.00
15 to 18 inches, B&B .....	1.80	16.50	150.00
18 to 24 inches, B&B .....	2.20	20.00	

**virginiana — Red Cedar 30-35 ft.**

Platte River type. This is a very nice lot of seedlings that have been regularly sheared and are of excellent pyramidal form

18 to 24 inches, B&B .....	1.10	9.50	85.00
2 to 2½ feet, B&B .....	1.30	11.50	100.00
2½ to 3 feet, B&B .....	1.50	13.50	120.00
3 to 3½ feet, B&B .....	1.90	17.50	160.00
3½ to 4 feet, B&B .....	2.20	20.00	185.00
4 to 5 feet, B&B .....	2.60	24.00	225.00
5 to 6 feet, B&B .....	3.25	30.00	

**virginiana burki — Burke's Juniper 10-12 ft.**

A dense narrow-columnar form of Juniperus virginiana with bright silvery blue foliage. The foliage is not quite as blue as that of Juniperus virginiana glauca, but the plant is a much better grower, being more erect and pyramidal.

3 to 3½ feet, B&B .....	3.00	27.50	
3½ to 4 feet, B&B .....	3.50	32.50	
4 to 4½ feet, B&B .....	4.00	37.50	

**virginiana cannarti — Cannart Red Cedar 12-15 ft.**

Probably the best of the many forms of Juniperus virginiana. A dense-growing symmetrical pyramid with heavy dark rich green foliage.

The trees offered here are well filled and compact, but are narrow for the height.

2½ to 3 feet, B&B .....	2.50	23.00	
3 to 3½ feet, B&B .....	3.25	30.00	
3½ to 4 feet, B&B .....	3.75	35.00	
4 to 4½ feet, B&B .....	4.35	41.00	
4½ to 5 feet, B&B .....	4.75	45.00	

## EVERGREENS — CONTINUED

**JUNIPERUS virginiana elegantissima — Goldtip Red Cedar 12-15 ft.**

Often called Lee's Golden Juniper. A striking plant with bronze-green foliage, accented by the golden-yellow tips of the branches. Naturally a low spreading grower, but if staked when young develops a dense broadly pyramidal tree.

	Each	Per 10	Per 100
2 to 2½ feet, B&B, staked .....	2.25	20.00	
2½ to 3 feet, B&B, staked .....	2.75	25.00	
3 to 3½ feet, B&B, staked .....	3.25		

**virginiana glauca — Silver Red Cedar 15-18 ft.**

A narrow columnar tree. The young growth is silvery-blue, changing to a beautiful bluish-green as the foliage matures.

2½ to 3 feet, B&B .....	2.50	22.50	
3 to 3½ feet, B&B .....	3.00	27.50	250.00
3½ to 4 feet, B&B .....	3.50	32.50	
4 to 4½ feet, B&B .....	4.00	37.50	

**virginiana keteleeri — Keteleer Red Cedar 15-18 ft.**

The formerly considered as a type of *Juniperus virginiana*, this variety is now classified under *Juniperus chinensis*, which see.

**virginiana schottii — Schott Red Cedar 12-15 ft.**

A compact pyramidal form, very similar to the Cannart Red Cedar, but with lighter yellowish-green foliage and ascending branches.

2½ to 3 feet, B&B .....	2.50	22.50	
3 to 3½ feet, B&B .....	3.25	30.00	
3½ to 4 feet, B&B .....	3.75	35.00	
4 to 4½ feet, B&B .....	4.25	40.00	
4½ to 5 feet, B&B .....	4.75	45.00	
5 to 6 feet, B&B .....	5.25	50.00	
6 to 7 feet, B&B .....	6.00	57.50	

**virginiana pyramidiformia hilli — Dundee Juniper 12-15 ft.**

An upright compact symmetrical pyramid with rich green foliage that turns to an attractive plum-green during the winter.

18 to 24 inches, B&B .....	1.10	10.00	90.00
2 to 2½ feet, B&B .....	1.90	17.50	160.00
2½ to 3 feet, B&B .....	2.50	23.50	220.00
3 to 3½ feet, B&B .....	3.25	30.00	

**PICEA canadensis albertiana — Black Hills Spruce 50-60 ft.**

One of the best and most popular of the Spruces. A compact symmetrical upright grower, the slowest growing and most compact of all of the tall Spruces. Also the most hardy of the Spruces, withstanding both heat and drought as well as cold better than most other varieties.

18 to 24 inches, B&B .....	1.60	13.50	
2 to 2½ feet, B&B .....	2.00	17.50	160.00
2½ to 3 feet, B&B .....	2.50	22.50	210.00
3 to 3½ feet, B&B .....	3.00	27.50	260.00

**excelsa — Norway Spruce 80-90 ft.**

The best known of all of the Spruces; a symmetrical well formed pyramid with graceful drooping branches. One of the best evergreen trees for screen or windbreak plantings.

18 to 24 inches, B&B .....	1.15	10.00	90.00
----------------------------	------	-------	-------

**pungens kosteri — Koster Blue Spruce 50-60 ft.**

One of the best of the grafted types of Colorado Blue Spruce, with foliage of an even bright silvery blue.

2½ to 3 feet, B&B .....	5.25		
3 to 3½ feet, B&B .....	6.00	57.50	
3½ to 4 feet, B&B .....	7.35	70.00	

## EVERGREENS — CONTINUED

**PINUS montana mughus — Mugho Pine or Dwarf Mountain Pine**

The true dwarf type; many-stemmed, bushy and compact. Each			
	Per 10	Per 100	
12 to 15 inch spread, B&B .....	1.65	15.00	135.00
15 to 18 inch spread, B&B .....	2.10	19.00	175.00
18 to 24 inch spread, B&B .....	2.75		

**TAXUS cuspidata — Japanese Yew**

While comparatively new as far as planting in the Central West is concerned, the Japanese Yew has already established itself as one of our most valuable evergreens. It is one of the few evergreens that really does well in shaded places, and yet does equally well in the sun. It can stand very heavy pruning, so is a valuable hedge plant. It is a variable plant of many forms. The foliage is always a clean dark lustrous green.

**cuspidata — Spreading Japanese Yew 10-12 ft.**

A spreading bush with horizontal somewhat ascending branches. Very hardy and does well in shaded places, especially good for foundation plantings.

24 to 30 inch spread, B&B .....	4.00	37.50	
30 to 36 inch spread, B&B .....	4.75	45.00	

**cuspidata nana (brevifolia) — Dwarf Japanese Yew 4-5 ft.**

A low slow-growing shrub-form Yew with wide-spreading branches, quite dense in its growth. Foliage very dark green.

18 to 24 inches, B&B, heavy .....	3.75	35.00	
-----------------------------------	------	-------	--

**media — Hatfield Spreading Yew**

A fine compact spreading Yew with very dark green foliage. This Yew was introduced by Mr. Wm. Hatfield and is very similar in form and color of foliage to the better known Upright Hatfield Yew, but is spreading in type of growth, closely resembling *Taxus cuspidata* in that respect.

15 to 18 inch spread, B&B .....	2.75	25.00	
18 to 24 inch spread, B&B .....	3.50	32.50	

**media Hicksii — Hick's Yew 15-18 ft.**

A very attractive form with numerous ascending branches and rich dark glossy green foliage. Usually grown as a narrow columnar tree for accent purposes.

18 to 24 inches, B&B, narrow .....	2.15	20.00	
2 to 2½ feet, B&B, narrow .....	3.00	27.50	
2½ to 3 feet, B&B, narrow .....	3.75	35.00	

**media Hunewelliana — Hunewell Yew**

We believe that this is one of the most promising of the newer types of Yews for this section of the county. It is a very rapid compact grower with attractive dark green foliage that does not change color in the Winter. It is much more rapid in growth than any other Yew that we have had here at Princeton and has distinct possibilities as a hedge plant.

15 to 18 inch spread, B&B .....	2.75	25.00	
18 to 24 inch spread, B&B .....	3.50	32.50	
24 to 30 inch spread, B&B .....	4.00	37.50	

**THUYA occidentalis — American Arborvitae 20-30 ft.**

A very good compact dark green type.

8 to 10 feet, B&B, heavy .....	7.50	70.00	
10 to 12 feet, B&B, heavy .....	11.00	100.00	

**occidentalis pyramidalis — Pyramidal Arborvitae 15-20 ft.**

The most popular of the Arborvitae types, with deep green foliage that holds its color well thru the Winter. A narrow columnar pyramid, splendid for accents in formal plantings.

18 to 24 inches, B&B .....	1.20	10.50	90.00
2 to 2½ feet, B&B .....	1.50	13.50	120.00
2½ to 3 feet, B&B .....	1.80	16.50	150.00

## ROSES

We have a fine lot of well matured and carefully graded Oregon grown Roses to offer this Spring—the best that can be obtained. All of the plants are low-budded on Multiflora Japonica with the exception of the few varieties of Climbing Roses that are specified as on their own roots.

**Source of Roses Important:**—The Middle West, with its hot dry summers, is a hard climate in which to flower Roses and the source of planting stock has been found to be almost as important an item in successful Rose growing here as is the selection of varieties. For a number of years we have been using these Oregon grown Roses and have found that they have given better results than those we have had from any other source. They are sturdy, well rooted and well matured plants, without any coarse overgrowth. They are somewhat more expensive than southern grown Roses, but are well worth the difference in price. We do not offer any southern grown Roses.

Many of the varieties of Hybrid Tea Roses are not adapted to the hot dry summers of this section of the country, and in offering this selection we have attempted to confine ourselves to varieties of merit particularly selected for vigorous growth and free blooming characteristics under the usual weather conditions in the Middle West.

### TEA and HYBRID TEA ROSES

#### 2 Year No. 1 Buds — All Northern Grown

	Per 10	Per 100
Ami Quinard—a vigorous grower with dark blackish-garnet buds opening dark velvety crimson, very fragrant .....	\$ 3.20	\$ 28.00
Betty Uprichard—salmon pink, stained coppery red on the outside of the petals, very fragrant; buds copper red .....	3.20	28.00
Christopher Stone—a finely formed and very fragrant rose with bright scarlet flowers. Dark green disease resistant foliage.....	3.80	35.00
Condesa de Sastago—a very free-flowering two-toned rose of strong bushy growth. The flowers are fragrant and very double, golden yellow without, deep coppery pink within.....	3.20	28.00
Dame Edith Helen—one of the largest and most perfectly shaped of the Hybrid Teas; bright glowing pink, very fragrant; one of the best out-door roses for this section .....	3.20	28.00
Duquesa de Penaranda—a strong vigorous variety, very free-flow- ering; apricot orange to dark pink .....	3.50	32.00
Edith Nellie Perkins—long-pointed buds; rich orange-pink outside, salmon pink inside of petals .....	3.20	28.00
E. G. Hill—large, massive, and very fragrant blooms of deep vel- vety maroon .....	3.20	28.00
Etoile de Hollande—the finest dark red rose for this section; a strong grower and free bloomer, very fragrant .....	3.20	28.00
Francis Scott Key—brilliant crimson; both buds and blooms are exceptionally large, double, and well shaped .....	3.20	28.00
Glowing Carmine—a tall vigorous grower and continuous bloomer with long-lasting and fragrant deep carmine blooms .....	3.50	32.00
Golden Pernet (Mons. Julien Potin)—finely formed pointed buds; deep golden yellow, a much richer color than the original Pernet, which it holds without fading .....	3.50	32.00
Grenoble—a tall vigorous grower with long stemmed scarlet-red flowers that do not fade. One of the better reds for this area.....	3.20	28.00
Gruss an Teplitz—the hardiest of the Hybrid Tea Roses, a very free and continuous bloomer, deep scarlet-crimson .....	3.20	28.00
Joanna Hill—very double bloom, the center is Indian Yellow, sur- rounded by petals of a golden-buff shade .....	3.20	28.00
Julien Potin—See Golden Pernet		

## TEA and HYBRID TEA ROSES — CONTINUED

	Per 10	Per 100
Kaiserin Auguste Viktoria—free-flowing, very double, pure white, the standard pure white bedding rose .....	3.20	28.00
Lady Margaret Stewart—very large, a vigorous grower, copper orange buds opening a bright yellow flushed orange-red.....	3.20	28.00
Mme. Edouard Herriott—a very brilliant coral-red, shaded orange and scarlet .....	3.20	28.00
McGredy's Ivory—a vigorous disease-resistant plant. Very large long-pointed buds and perfectly shaped creamy white flowers that shade toward yellow at the base of the petals .....	3.50	32.00
Mme. Joseph Perraud—long, slender, pointed, fragrant buds; blooms, orange buff shading to deep pink at the petal margins, a really superior rose .....	3.50	32.00
Mme. Jules Bouche—a medium sized but superb white with a tinge of blush pink at the center .....	3.20	28.00
Mrs. Charles Bell—soft salmon pink, very sweetly perfumed. One of the best of the Radiance type .....	3.20	28.00
Mrs. Erskine Pembroke Thom—canary yellow; long buds and large well-shaped flowers; vigorous and free flowering.....	3.20	28.00
Mrs. Henry Bowles—clear rose-pink shaded salmon, vigorous and free flowering .....	3.20	28.00
Mrs. Pierre S. DuPont—reddish gold in bud, opening to a deep yellow. A strong vigorous grower and profuse bloomer.....	3.20	28.00
Mrs. Sam McGredy—a very fine tri-color with long-pointed buds and large scarlet-copper-orange flowers that are flushed with red on the outside of the petals. A vigorous disease resistant plant and a prolific bloomer .....	3.50	32.00
President Herbert Hoover—one of the most popular Hybrid Teas for this area. A glorious rose with long-pointed buds and large full flowers, very fragrant; an unusual combination of orange, gold, and maroon .....	3.20	28.00
Radiance—large, brilliant rose-pink. The Radiance type is one of the best for this section of the country, as it will continue to produce flowers during the most unfavorable hot weather. Strong upright grower, free bloomer .....	3.20	28.00
Red Radiance—a free-blooming bright rosy-red counterpart of Radiance, of sturdy growth and delightful fragrance .....	3.20	28.00
Rouge Mallerin—large, long-lasting and very double blooms of a striking velvety red. A very promising variety .....	3.50	32.00
Souvenir de Claudius Pernet—pure sunflower yellow; the old stand-by for a pure yellow rose .....	3.20	28.00
Souvenir de Mme. C. Chambard—large, semi-double, fragrant flowers; the outer petals are a deep rose-red, the inner petals a deep salmon pink shaded gold. A vigorous upright grower... ..	3.20	28.00
Talisman—long-pointed orange-red buds; the blooms are golden yellow suffused with apricot and coppery red .....	3.20	28.00
Ville de Paris—a distinct pure deep yellow rose with the unusual characteristic that its color does not fade .....	3.20	28.00

## HYBRID PERPETUAL ROSES

## 2 Year No. 1 Buds — All Northern Grown

American Beauty—a well known and very popular variety, fragrant, brilliant light crimson .....	\$ 2.90	\$ 25.00
Frau Karl Druschki (Snow Queen)—the best pure white rose.....	2.90	25.00
General Jacqueminot—clear bright crimson, a very free bloomer, an old garden favorite .....	2.90	25.00
Paul Neyron—bright deep pink, a fine variety and one of the largest of all Hybrid Roses .....	2.90	25.00
Ulrich Brunner—rich cherry red, a strong vigorous grower .....	2.90	25.00

## CLIMBING AND RAMBLER ROSES

## 2 Year No. 1 — Buds Except Where Marked (OR)

With the exception of the Rambler types (Crimson Rambler, Dorothy Perkins, and Excelsa) which are on their own roots, the Climbing Roses offered here are all budded on Multiflora Japonica.

	Per 10	Per 100
Climbing American Beauty—vigorous, hardy, free-flowering; the blooms are large, very double, and bright crimson .....	\$ 2.60	\$ 22.50
Crimson Rambler (OR)—small ruffled bright scarlet double flowers in clusters .....	2.10	18.00
Dorothy Perkins (OR)—soft shell pink, small double flowers in clusters .....	1.80	15.00
Dr. Van Fleet—rich shell pink, pointed buds, large semi-double flowers .....	2.60	22.50
Excelsa (Red Dorothy Perkins) (OR)—intense scarlet, large clusters of small flowers, probably the best of the red Ramblers.....	1.80	15.00
Gardenia—a rich creamy yellow Rambler .....	2.30	
Paul's Scarlet Climber—large well-shaped semi-double flowers in clusters, a vivid scarlet that fades but little, the most popular Climbing Rose .....	2.60	22.50
Silver Moon—long creamy-white buds, flowers very large, semi-double, silvery white showing yellow stamens .....	2.60	22.50

## HYBRID RUGOSA ROSES

## 2 Year No. 1 Buds — All Northern Grown

	Per 10	Per 100
Agnes—a fine amber-yellow Rugosa, free-flowering and fragrant; a new color in Rugosas .....	\$ 2.60	\$ 22.50
Amelie Graveaux—very deep crimson, double; very strong grower; one of the best of the Rugosas .....	2.60	22.50

Strong No. 1 plants .....	\$ 1.20	\$ 8.50

All orders are booked subject to our regular Terms and Conditions of Sale as printed on pages 2 and 3. These should be carefully noted as we cannot vary from them.

## PEONIES

For a complete list of the varieties of Peonies that we have to offer, please refer to our special Peony list for the Fall of 1941, a copy of which will be sent on request. Peonies have been a specialty with us for many years and we are growing a very comprehensive list of varieties.

Figures following the name of the variety show ratings according to the classification of the American Peony Society.

**GRADE:**—All of the plants offered are strong divisions of two and three year old clumps carrying from 3 to 5 eyes; well rooted, well balanced, and well developed plants. All have been grown for plants only—we do not offer divisions of old cut-flower plants.

### PEONIES TO COLOR

We make these up from named varieties of our own selection, shipping without differentiation of varieties.

	Per 10	Per 100	Per 1000
Double Pink .....	\$ 1.00	\$ 7.00	\$ 60.00

## BLEEDING HEART

Dicentra spectabilis — Old fashioned Bleeding Heart		
No. 1, 3 to 5 eyes .....	Per 10 \$ 1.70	Per 100 \$14.00

## DELPHINUMS

	Per 10	Per 100
Wayside Giant Hybrids .....	1.30	12.00
Immense flowers closely set on strong straight stems in a wide range of colors including all shades and pastel combinations of blue, mauve, pink and lavender, with doubles much predominating. The stems are of good height, though not as tall as those of the Pacific or Wrexham strains. The plant is exceptionally sturdy and well adapted to the exacting conditions of the Central West.		

## LINING-OUT STOCK

The following seedlings were grown for our own use and are very stocky and well rooted.

	Per 100	Per 1000
Cornus mas — 2 year seedlings, 6 to 8 inches .....	\$ 2.75	\$22.50
Cornus mas — 2 year seedlings, 15 to 24 inches .....	5.00	45.00
